

497th Knowledge Seekers Workshop Aug 3, 2023

(Transcription, Proofing done)

(Auto transcription by Elias)

ENGLISH TRANSCRIPTION

(:22).

K- Thank you very much. Thank you for all the greetings. Good morning, good day to you as usual, wherever and whenever you listen to today's series of Knowledge Seekers from the Keshe Foundation Spaceship Institute. And we welcome you back, as usual, to share knowledge with each other and learn a little bit more about the world of Creation and physical life of man.

As Rick said, I had a birthday, officially my birthday is today in the Iranian calendar, but on my passport it's yesterday. In any way, today I was in a meeting with those who we work in, we start new life of Keshe Foundation. And it came to me that, usually all of us, majority of us, look at the age of 65 to retire and take the shoes off and lay back and start rest. And at 65 I'm negotiating for man to change the course and join the Universal Community. So, I have just started, when a lot of us hang our coats and lay back, and we retire and we look for a long term, what I call, rest. And on my birthday I start actually to do more, to extend it. And whatever it is with life, it is. Another 40 years, another 40 days, another 400 years.

We are here to serve and bring that change in our capability and power and knowledge in any shape or form. As I said many times, we've been around a long time. We just, as you change clothes, we change the body of the man to carry on, to educate the man to the point of joining, understanding his, what we call, life. What is the purpose of life, not only for man, (:24). but the world of Creation.

In the process of the work, as we heard in the teaching today, Intro, is the ray of the Sun becomes another cycle. This cycle of the interaction of the rays, becomes Zinc and Carbon and becomes Copper. And it becomes sugar and everything else, to create the body of the man. As I mentioned last week, we have managed to produce some, 20 odd elements, and then furthermore elements, and this week, the test results gives us, we have managed to produce, actually maybe another 10, 15 elements, added to the past, in the same process. So, in a way, we have become the life, and the cycle of interaction of the fields, creating again matters, matter energy, matter interaction.

To celebrate the 65th birthday, yesterday I started and I asked the team of the Keshe Foundation (KF) a paper. The paper title is the same as the first Book, "The Universal Order of Creation of Matters," where from the rays we have created matters, elements. The Book was theory, that now with the work we are doing, with the team we are working with, we have created to prove and confirm the theory of the Book in reality of the test of existence. And in that process, what we said in Book one, (:26). that how

matter is created from interaction of the fields. Now we have created the matters. So the theory has confirmed in practicality and with a force, what we call, not just the Keshe Foundation, but as I said before, with presentation and being presence of the highest ranking officers, military, who ran the test. And they've done the test.

So in a way, what we wrote as a theory of the book, now has become the reality of science. This paper will be published in the next few weeks, as the structure of it, since yesterday, is getting drawn up. And evidences, scientific papers, will be added to it to confirm the correctness of the theory. So, in a way, the Book one as a theory, now has become reality in science and technology. And we'll see new breakthroughs with this knowledge.

I'm sure in a coming time, we shall do the same with the Book two, transportation and transmutation through the light, the structure of the light. And back to it, maybe near future, again we go into confirmation of the plasma. It is interesting to understand how life begins. And I think one of the most important parts for us, in the coming times, in the next maybe 5 or 10 years, in the teaching of maybe 1,000 or 999 (KSW) of the Keshe Foundation, somewhere down there, (:28). we reach to the educational level that we find the strength of the fields which lead us to the Creator. I can teach you that today. But you're not ready for it. I can show you how you can reach the essence of the creation of the Creator, because it's written in the Book two. But you always looked at it as light, not as a "light of Creator," and how His light has become us in different dimensions (D) and directions.

In understanding the transmutation, in understanding the condition of the transfer from energy to matter, one thing should have become clear to many Knowledge Seekers (KS). Are we the light of the Creator, the essence of His Creation? I am you, as you are I. When we understand this, when we come to the point of understanding of the transmutation, and then understanding on transmutation through the speed of the light, and understanding that different lights have different strengths, and then in that essence, we find within the light, the strength of the light of the Creator, it should not be very hard for many of us to reach our Creator, the Soul of our Creator, understand His structure, understand our own creation. (:30).

Is, or are some of us, as a light, appear in the essence of the knowledge of the Creator. In a way, we come from the Source. And not in the process of division, different galaxies and the stars and repetition. Where the light of the Creator becomes the dust of Creator and becomes the creation of the entity, be it Mitra or the children of Mitra. In essence, life now has a meaning in a different way, if we understand the process of the transmutation. Do not forget that all the fields of the universe, every single field, be it from a star, be it from a galaxy, be it from a man, has a common denominator. That's why they can MaGrav position themselves, in respect to each other. And that common denominator is the strength of the light, the field strength of the Creator. So every one of us, every being, every Soul, every single cell which has a Soul, has within it the strength of the light of the Creator, the knowledge, the love, the creation of the Creator.

In so many ways, once the scientist, once the wise men of creation understand the science of creation, very soon, man will find the path to his Creator. Much faster, much sooner than "banging their heads against a wall" somewhere, or "on the floor" somewhere else, or burning bodies and whatever, for the rain and the sun. (:32).

Man has to understand. Now that we have shown scientifically the transformation of the energy into matter state, and in the past week we have shown what we call, none, what we call, matter state. Structures of, in a way, gases, in a way, combination of life without matter state, that their existence and interaction with the matter state elements, or elements of the metallic structure, confirms the existence of the life, the existence of matter itself.

This is important in the future teaching. It's important for man to understand how life can be confirmed. The existence of the entity can be confirmed by the energies of what we call, fields of non-matter levels. But, when we see these fields, it indicates to us, the essence and the origin of, combination of, interaction of, existence of, that matter.

In a way, in a future, through the Soul of the Man (STM), we can confirm the physicality (P) of the man. Where the energy of the Soul will indicate, will show us, the essence of the physical manifestation, at the point of interaction with the environmental fields. (:34).

In a coming time, in a very near future, we'll bring this forward. We will bring this to a point that by interaction of the fields we'll confirm the existence of the elements of the creation. Even those elements which man cannot even imagine that can exist.

In the essence of Creation the Universal order of the creation of matter, the Universal order of creation of energy is all the same. It's for man knowledge, essence of Creation, to understand this. And how to transmute it from energy to matter, and how to transfer it from matter to energy. In the present world of science, we burn elements to get energy. Where in the life of Creation, we give a strength to it, to change it. We add to it, to elevate it. We don't take from it, to annihilate it.

This is the difference between the process of the creation of the energy in a, what we call, plasma condition, than in a matter state condition. We create a new life, we create a new cycle, we create a new matter by elevation, by giving energy, field strength to. Where in the matter state, we burn it, we destroy it to release its energy.

In so many ways, the world of science in the world of matter state, (:36). is in a way, counterpart to the strength of the energy matter plasma of the same. In the future, when we open up the sessions, the graphs of the sessions of past four weeks, where we allow you fixing your physicality, you fixing your Soul, you fixing whatever. You will see when everything is in balance, STM will stand opposite, exactly 180 degrees opposite to the Soul of the Physicality (STP) and the physicality of the man, which they usually stick together.

It's amazing when we open these graphs, when we open this data recorded, you see how physicality and the STP of the man always stick together. And the STM in 180 degree in phase, "Yin and Yang," a "Loop of Infinity." And the interesting part is, when we see deviation from one or the other, we see all complications. When we see the physicality reaches towards the Soul, we see problem with the so called STP, with emotion, psychological pattern. And when we see the P on one side, and the Soul and the STP on the other, we see problem in P.

The data we have gathered, the knowledge we have gathered, is so deep, it's so vital for the future of the man, that we can show physically, (:38). when we put you on the system, where is the problem. Is your emotion creator of your cancer? Or have you "cancered" yourself to create the emotion? It's so simple.

In the past 4 weeks of trial with the Knowledge Seekers, we have gathered so much detailed information about the behavior of conversion of the STM and interaction with the STP and the P of the man. In a way, transmutation and transfer and transportation. The data, the what we have gathered, shows us how STM plays game in the structure, interaction, and the cycle of life of the man. With all interest, with all what we have understood, this allows us, as we see how so rapid Soul flips to one side, and the STP and P to the other side, we have not even understood. And this is where we call it the light, the structure of the light. It happens in a flash of a second. The light which we are not even have the knowledge to absorb, to observe, to detect, and to confirm.

In a coming time, as we bring the data out that you can see, and we show the data as it comes up for us all to see. You will see the behavior of your Soul. You can see the behavior of your Soul in respect to your STP. (:40). And you can see the behavior of your STP towards your physical life. And then with the same system, we can detect your emotion. Have I created that cancer to myself? And how I can, I created it? To what extent I'm responsible for the harm I've done to my own physical condition.

Then with what we've seen in the pattern of the data, it explains to us how, when we put you together as a group of 70, 80, as we've done in past four weeks, you actually help each other. You give strength to each other. You bring change to each other. All moves together, because our data is the data collection of all 78 of you who participated in the trial.

In a way, in the next sessions, you can ask us, can I see the graph, the fingerprint of my Soul, the behavior of my Soul? And now our technology is so deep that we can show. Five minutes on the system, 10 minutes on the system, you can see how you deal with your STP. How you operate and separate your STP from your physical life and bring it all the diseases. And then how your Soul and the STP get to one side, that create the physical life to find a new dimension for itself. Elevation in the dimension of giving towards the Soul to elevate one or the other. (:42).

The data gathered, the information we have gathered, is so deep, is so amazing, that when I watch it during the test, during the time you're sitting in those quiet times in three hour

sessions, two hour sessions, we gather so much information. If one of you falls out, if you collectively work together, if you work against each other, you work against your Soul, it all can be seen now. The knowledge, the technology is set to that level.

And we are on the verge of you getting into the system, a mental case, wanting to do everything with yourself. You put you through the system, and you land on the Mars, and you love yourself, and you create a condition of peace within yourself. Few seconds of elevation of the Soul to pass the dimension of the STP, remedies, fulfills the shortcoming and recovers from what the shortcomings are. In this process, in this understanding, with what we have seen and as I said, what will be published very soon as confirmation of the Book one, it'll bring you a change. It'll bring a change and shift in the world of science.

This knowledge, in the past few days, has been shared with the Iranian government officials, that the change has come. The creation of the matter, or interaction of the specific way of creation of fields, has completed and confirms the Book number one.

In the coming days, this technology will be shared with many governments, (:44). as they have to understand what is to come and what is the future for mankind. This information, as the paper of the confirmation of the transportation and transmutation of the space travel of the future, will be presented in the November session with the world ambassadors and world leaders to bring that change, to bring the position for all of us to understand.

As I said, the November session with the world leaders and ambassadors will be what I call, the "watershed" in the world of science and technology (T). We invite those who participated in tests with us, the officials, military, and the government officials who've been present, as they can say what they saw, how they felt, and what it was. This is important, as the man will trust those who they trust and lead us.

In the coming time, we start the process of conversion. We are starting the process of understanding. In a way, when we put you in the new systems, we give you the graph of you to you. You come to us, you go to our doctors, and you say, I have a cancer. I have emotion problem. I have psychological problem. I have tension and pressure in one part of my body or the other. Now we can give you the graph of you in all three dimensions. The Soul, STP and the P. (:46).

And then you can see what you are doing to yourself, and how you can correct it, and how you can take, you can add to the energy of the STP, to the P of the man. That with it, in replication, on the other side, you can elevate your Soul. When the STP and the P come near the zero line, you see the Soul is zero, too. Near to it. When the two expand to increase their strength, you see the Soul strength increases too. It's the mirror image of each other. And then you understand, when your Soul is on its own, and your STP on its own, and your physicality "hair wiring" everywhere, you have to understand how you can bring the two to be in line and in synchronized manner with each other. Then you learn how, through behavior, which is the STP of the man's interaction with the STM, you can elevate your Soul.

This is a knowledge which has never been open to man. You "bang your head against the Great Wall." You bang your head against a stone on the floor. You did everything possible in the name of whatever to find elevation, to find what I call, another step for you to be better. But you never knew why. You never understood why. From now on, you can.

In the October session and in the, what we call, November sessions, (:48). we'll open a new science to mankind. Where you see how you create your own demise, how you create your own diseases, how you create your own elevation. In August, we open a few sessions for those of you who wants to spend to see the graph of your Soul. The behavior of your Soul, with your STP, and your physical life.

We will announce the opening of these sessions, very limited numbers will be done. And it'll be literally you with the system, within the system, anywhere in the world. And we give you the graph of yourself. You've seen your face, you've touched your skin, you've seen inside your heart how it operates. Now you can see the operation of your existence as an energy. On the Keshe Foundation website, in the next few days, we open this channel, very limited, very limited numbers. And like you go and you get ultrasonic, or whatever, of your heart, or whatever. For the first time you will see the shape, the pattern of your own Soul. And how you interact with the STP and physicality of cells. And then you have to find out, where all diseases come to me. And where all the joys come to me. And how I can elevate my Soul.

We open this channel for a very few numbers. And we spend time with you, individually on the system. (:50). And as usually you go for a, what we call, "roller coaster," and you get a picture of you somewhere down the roller coaster, we give you a picture of the graph of your Soul. In respect to your STP and your physicality. And then, I'm sure many of you will share it with the rest of you, that others can see, how actually, what actually I do, how my Soul is connected to my physicality, and where and how I find peace.

The reason for past 6 months, 8 months, has been this, that when you're in deep space, as a physicians of the space, we don't take your blood pressure, we don't take your, what we call, sugar or the others. We see the behavior of the Soul, we see the behavior of the STP, and we see the behavior of your physicality. And then we see what it needs to be elevated, and you need to elevate it too.

This should not be strange things for you. When you came to Italy and you sat in those chair number one, two and three, one was the physicality, one was the STP, one was the Soul. Now you can see what you've done in those systems. And then you go and work, how you can balance it, how you find a way to elevate your Soul, and walk away from diseases of Space, not from diseases of the man. Physicality can be entangled with everything, (:52). but the Soul can be at peace and happy to exist. And maybe in time, the Soul will change the dimension of physicality.

This is a time for change. This is a time for us, through the strength of the Soul, change the strength of the P and the STP. And maybe, in that process, we find, some of us, the path to our Creator, to the essence, to the origin, to what we came from. Where you, through interaction of the life of the physical dimension, which is Book one, in transmuting, transferring through the light of the fields of you, will elevate your Soul, which is Book number three.

Now you understand why we took this path and how and where we are heading. In a way in the future, this technology is important to us as we come across the new generation of lives in the space, new energy paths in space. Through such a simple system, we can understand their hostility, their love, their care, and what they are made of.

When we did the test, our military people were interested what matters are created. I was interested in what energies which attracted those matters, were interested. And when we got the data, it's amazing how energy interaction can lead to creation of the matter, even though those energies might not be within the matter. (:54).

In the upcoming time, in the upcoming paper, which will be published, you can see all this and understand more about the world of Creation. You understand more about yourself, how you lead to creation of life, as was in the Intro, and what lives your Soul shall create in the interaction with itself. What we call, the leap in the world of science, of Space, is so great and so rapid, that will take mankind centuries to understand even the teaching of past 10 minutes.

You will understand what I call, the observation of the fields of your existence, sessions which will be announced or opened up on the Keshe Foundation website will give you a very interesting point. How you came in, how you been and how you leave the systems. And then it's you, for you to understand how you felt in what emotions you came in, with what aims you came in, and what happened in between, and what happened at the end. Then this gives you, in a way, a recipe for the rest of your life. A recipe for the rest of the life of your Soul, and not your physicality. And a way for you to understand, to elevate your own existence. (:56).

Part of this work will be carried out, will be taught in the sessions in Manchester in a few weeks time. Where gradually, as Knowledge Seekers, you become knowledgeable, seeking knowledge about existence and elevation of your own Soul, and nothing else. And how you can elevate the others. And what is your expectation from other Souls. And not just money in the pocket.

The teaching, the understanding of the process of the Creation, now start taking shape and have meanings. And then, when we send you across from one part of this planet to another, from one part of the universe (U) to another, by asking your Soul to travel, to tell us, you find out that you become master of what I call, transmutation, transportation. And this is not something new. If you remember those of you who came to Linz, you were sitting there and the minute we ask you, you can go and travel, go to the Moon, you

wanted to go to the Moon, you zipped .. zooped off and you were there. You wanted to be somewhere else.

So, in a way, in past 12 months, we have taught you, we have shown you, many of you, hundreds of you, tested it. The process of the teaching, the totality of the understanding of the knowledge of Creation, is at the reach of man. And, in that process, in the November 11th presentation, in London, we might see some more, what I call, more advanced knowledge's about space travel. And understanding the process. (:58).

As I said, in August session, we'll have a very, very limited numbers, because it'll be individuals. In the past sessions has been 100 of you, 150 of you, now it'll be you and your Soul. You can see it for the first time, you can understand it for the first time. And you'll be given the pictures of your, what I call, the STP, the P and your Soul, and see how harmonious it is, and how separate they are. And what you need to do, to bring them in balance yourself. You become your own physician, you're "last man standing," as nobody (else) understands how you came to this point.

The last man standing sessions, which will be announced, released by Keshe Foundation next couple of days, for the August sessions, you will... it'll bring you to the point, for you to understand yourself, in the dimension of the Soul. And if you are clear with yourself, you can release the data, you can release your graphs for the others to see, and maybe from seeing some of yours and the others, understand where the pitfalls are, where they have misguided and abused their P and the STP. And then, we show you, when it came to one point, we told you we don't need to ask you any question, because we saw the STM, the STP, on the physicality of the man, of all the participants, were one straight line, next to each other. (1:00). Which means we brought peace, balance and collective decision, for that purpose. Which was to elevate the Soul of those who were abused by the abusers.

And it was amazing to see this, and I'm sure we will release this data one day. Which means there were no Souls who abused, no physicality of... no STP amongst those who were participants, even themselves. Because the biggest abuser of the man, is the man himself.

As I said, the teaching enters a new dimension of energy and not matter. A dimension of the Soul, which is the, what we call, magnetic fields in motion, what we call, energy. And the STM is a bundle of magnetic fields in motion. Energy which can be more than thousands of times stronger than Hiroshima bomb. By order of magnitude. Now you understand where the teaching's going. And now we use what we call, those who are in a way, not aware of themselves to become aware of their life. You don't go for sonograph. You don't go, I want to see my heartbeat. I want to see the scan of my brain. Soon, people like you will ask, I want to know the state of my Soul, the STP and my P. Where have I gone wrong? And what is needed to become in balance? (1:02).

The elevation of the STM is the responsibility of the man alone himself, and not banging on the wall or 17 times on the floor. It has to become for man to understand that elevation comes within the strength of the emotion and not in the strength of the motion.

One day soon, what we set out to do will become a normal pattern in life of many. And it'll become what I call, standard way to understand what is wrong and what can be done. We open this channel for a very short time, for a very few number of people, and we'll close it very rapidly, as each one needs individual attention and session.

Thank you very much for being here today. And I couldn't give you a bigger gift as a birthday present to all of you. I hope you understand. And you find a way to elevate your Soul, your own, and not the others, unless they ask for it. And then you'll find out there is no need for prophets and messengers. And there is a need for teachers to teach the science of the Creation. Thank you very much for today. We go for a break, and we come back. And maybe, if you think about it and listen to the teaching of today, up to now, you will find out the gift we have given you. (1:04). Mankind has been waiting for this for thousands of years. Thank you very much, Rick. If you go to a break, and we come back to answer any questions.

<< **BREAK** >> 497 KSW August 03, 2023 (1:10).

R: ... Generally we have questions for Mr. Keshe, which he answers. Mr. Keshe would you like to maybe watch the video from the Brazilian community on to celebrate your birthday? Maybe we can play that now?

K- Why not? You can show it, it'll be a pleasure. And tomorrow, as has been our tradition, Keshe Foundation will release every 5 years, more or less, a portrait of the time of around my birthday. And the day of birthday of mine is the birthday of the Universal Council too. So, we celebrate the two together. And, in so many ways, we usher a new cycle of life in this cycle of 5 years. And I'm sure it'll be a very interesting 5 years, and by the end of this month, (1:12). we'll reach the 500th session of the Knowledge Seekers teaching program. Which itself is a massive breakthrough in teaching cycle, non-stop, for over 10 years. And I thank all of you for being there to make it possible, to make it

happen. I'm sure in next five years, we will change a lot of things in the course of the man. And with what is to be released, most probably in November to world ambassadors will bring huge changes. Thank you very much for all your support in past ten years, and for everything you've done for the Humanity.

Go ahead Rick, let's see.

<< Plays birthday video done by Brazilian Community >>

K- Thank you very much. Thank you for all the efforts by the Brazilians and the others. As I said, it's a collective work and now we are pulling from all parts. And in time, each one of us, time Nigerians, time Australians, time Brazilians, Canadians, and English, and Germans, (1:18). and the Iranians and the Chinese, each one of us in our own turn brought the change and supported to move in one way or another, to bring that change. And where we sit today, where we stand with the knowledge today, we see the change is about to come in a big way. But if it comes in one way, it becomes magic and people do not appreciate it. But the way we've done, step by step, Soul by Soul, we bring enough momentum, that it gets accepted by all, through natural process, and not by force. And that's where is needed, this technology to come now, to be understood, and to be applied and implemented by each one of us, for our own benefit, and not to benefit it by the others, in the process of our own existence. Thank you very much, and I hope, next 12 months, will be a bigger change for all of us, and as we see it, it can be a massive change. It's a beautiful horizon for all of us, in science and technology. As I said, we are not the only one. We see new technologies and new sciences emerge. And collectively, the new science will bring the new change. Thank you very much.

Are there any other questions?

R: ... In previous times you've discussed the relationship between the STP and the STM. (1:20). I believe in the way that humans are "schizophrenic," in that we have these, sort of a dual personality that way. So, we have a question from Leila in the YouTube, who says, I recall Mr. Keshe's earlier teachings, he commented, and how he would welcome the company of a schizophrenic, because they're better suited or adaptable for environments or circumstances under pressure. She continues, I wonder if you could please elaborate on this further, especially with regards to the quality of this condition, or characteristic, or expression, relative to the development of the Soul. Thank you.

K- We call schizophrenic man himself, because he has a Soul and STP. And he does everything when he suits him in the name of the STP, you call it, the life of the man. And when it suits him in the dimension of the Soul and he calls it a dream. He has managed a very beautiful way, to hide the other life, as a dream. And, it's very interesting, some of you dream, and you wake up and you say, I have a strange dream, I went there and there and I did this and that happened. But, you don't say, sometimes, it's something strange today, I went to this shop, to that shop, I shopped this, I went there, I had food there and there, and I came back. What you do in the dimension of physicality, is your normal life.

But, when you have it in the dimension of the Soul, it's a dream and it went to strange places.

You've never been to a, what I call, (1:22). Chinese restaurant with cats and dogs loose in the restaurant. But you did it today, and that was it. But, if you have that in your dream, I went something strange. So, we live this life of a schizophrenic ourselves every day. And, we don't call ourselves a schizophrenic, we call other half, which we have hidden inside us, the... what we call, a dream. Or, the work of our Soul has become a dream.

Because we cannot say, actually, I have two existing lives within me. One is what I am physically, and one is inside me, which creates all the conditions of my life for me. If that Soul was not created within the womb of the mother, there was no physicality of you.

You've seen these organizations or partnerships, which the partner, which is the brain of the whole operation in the background, is never allowed to be seen by the partner, which actually knows nothing and is busy with everything. It shows that he's doing everything. And that's the characteristic of a man. Two partners when one is hiding. And now we are showing how that schizophrenic life we do cover it as a dream is a reality, and we can benefit by it, actually. It can change the course of your physical life in a huge way, if you understand it. (1:24). So, the biggest schizophrenic is the man himself.

And, as I said, if we talk about other conditions of what we call, schizophrenic in a medical condition, medical life, that is a natural process which we all know, we have taught many times about it, and that is the reality of, we are seeing triplets. In a place, they all looked at three girls, looking the same. Each one carries his own Soul, and each one carries his own physicality. We see Siamese twins, because there's two head, or one head, stuck together as two parts, or one brain. Oh look, this is one, two bodies, and two Souls. But what we denied is, as part of the process of life, there could be two Souls or three Souls within the structure of one physical life. And has to be respected. If we respect Siamese twins as... because we see two heads or two faces and one body, or two bodies stuck together, we have not managed to respect another process of creation of life, which is one body with three Souls. Which the interaction of those three, has made the dimension of physicality of what we see.

If there was one, it could have been totally different physical manifestation. Or if it was two of them, was the same. And there is a very big difference between the schizophrenic, and what we call, people having or creating different, (1:26). understanding emotion interaction of the fields, and creating characters within them. It's a very big difference. And that, is a totally different knowledge and understanding of the work, of one body, which allows itself to evolve.

But, in essence, as I worked for years with schizophrenic, I have brought to understand, you have to respect life, as the biggest schizophrenic is us. At least with them, we see the Souls. The Souls manifest themselves individually in the characteristics and the character of the behavior and presentation of life of them.

When I used to go to psychiatric hospitals and watch the behavior of the life of the schizophrenics, in those days, my biggest dilemma was, am I actually the real one? And they are actually the true man of life? Because they are there and we can see all. They show their emotions. They show their individual characteristics. And we sit there and we hide our Soul.

In spending time in trying to understand this, it brought a clear understanding of the work of the STM. (1:28). In a way, it was part of what I call, the training of today's understanding how to handle the Soul, where the Soul is, and how you can elevate it, how you can separate it, how its function is, and what is its purpose. I used to sit and watch them, and the doctors used to inject them with different medication, and they used to line up the tablets. And I thought, is the crazy man the doctor and these people are sane. And how, because we have the power, we have imprisoned them, incarcerated them. And in fact, it's us who are the criminals and need to be locked up, not them. As we don't understand their condition.

I wonder if the time comes when the world of science becomes wise to this and one day we will show, the same as what we did with the Souls and the STP, which now we announce in a week, in the next couple of days, you can book yourself to see your Souls and your, what I call, physicality performance. I'm sure in the very near future, we will have the technology to see each Soul individually, with the same physicality. What this means, we have to develop a system, where, let's say we know, or the doctors tell us they are schizophrenic, (1:30). and put them in a machine, and see how we see three or two or four graphs, running systematically together, but totally different. Representing clearly the existence of individual Souls within these bodies.

We put man as political prisoners into prison. We incarcerate innocent people with the scarves on their head and nakedness of their head, with hair out, to justify our own meager weakness and stupidity. When the time will come, that we realize what we done to the people we call, the schizophrenic? The crimes we have committed. And we are still committing? And we call them specialists and psychologists and psychiatric treatment, where the doctors should be in those places locked up, than these people. I wonder, in a very near future, when we put a number of schizophrenic in the systems, as you'll be paying to go and see yours, and we show all Souls within one body, with the same behavior, what will the science will stand for, for the crimes they've done to humanity in past decades? We have to lock up psychiatric doctors, as their stupidity has led to the crime of locking these "beautiful people" up. (1:32). They call, they say, "ignorance is a bliss." And in a way, our doctors and scientists are ignorant, and we bless them.

We are on the verge of proving this. As I said, now we show scientifically what is in book one. Very soon, we are heading that direction, where we bring those who they call, schizophrenic, and we show the Souls within them. And then we put the world of medicine to shame. Let alone those who call themselves psychiatric doctors, as they need help, and not those who we commit to these, what I call, "locked up conditions." It's so inhumane, we won't keep our dogs in that position.

It's very close. In the next few months and years, as we develop the technology, the way I put 80, 100, 150 of you in the system and brought it. Now, we have the knowledge to show the Souls of these people, within them. Those who are imagination, we cannot do anything. But those who are true schizophrenic, then you can see, the presence of the 4 Souls, and now you pay to come and see your Souls. And if we run two systems, you see two Souls, we tell you, excuse me, would you like to tell us who's the other one you've been hiding?

Any other question?

Q: ... (1:34). In the 346th Knowledge Seekers Workshop, after 3 hours and 37 minutes, the lady asked a question about your teaching of how to bring the level of the STP to such a level that it becomes in contact with the STM. And she continues saying that you said that you had a technique for that, and then she asks, how? Then you answer saying that the STM was not ready, and that this technique would be shown in the right time, after March 21st. That the new Soul will teach this technique. I know that elevation is individual, and that each one has to find his elevation. The question is, could you tell us a little more about this technique that was mentioned, or how to find within us, this knowledge through the new Soul? Thank you very much Mr. Keshe.

K- The knowledge is within us, and the elevation of the STM, is part of the daily life. We just ignore it, and we have become so ignorant, that we cannot confirm his existence. We sleep through it most of the time. All the time. And if you manage to be awake at the point of the transition, you can feel, (1:36). you complete a cycle of how the energies can be added to it. This is part of the elevation of the STM, through the conduct of the behavior of the P of the man and his emotion.

We do this different way to absorb different field strength within our body, without knowing. Our physical life has tuned itself to it. We call it the rest time. But that transition point of few microseconds of the switch allows, if one ever understand how to do it, for you to be able to, in a way, add to your Soul, add to your existence. And it happens so often in our body, in our life, that we do not take notice of it. What I call, the "zero point."

Our sleep pattern is usually a four hour pattern, roughly, where we switch from one hemisphere of the body to the other. Our lungs do this switching. Our nose does this switching every hour. Our kidneys do this switching. One kidney goes to rest. (1:38). One kidney will create. In the life of our female part, we create egg in one ovary a month and then the other. In the life of the man, we do the same switching. One testicle produces one ?? moment, and the other one does not produce that to give a rest, to allow.

And if man becomes wise, there is a cycle between all this at a specific time, a specific cycle where all falls to zero. And in that point is the time when you can elevate your Soul. In a way, in a specific way, in a specific harmonic way, all the organs, all the cycles, all the, what I call, sleeping pattern, awaken pattern, will switch, and this happens

a few times in the life of the man, for microseconds, for a very short time, and if you find out, if you can understand it, it's the time where most of our absorption, everything is given to.

The older we become, this more frequently happens. And in one of these points of switch, is when the life stops. (1:40). Those who die natural life (death), they die at this point of switch. Where that switch reaches the point that cannot add anymore to the Soul, to its elevation, and the Soul departs, and the physically shuts down. All natural deaths happens at this point of switch. Without the fail.

And this point, this zero point time, which is harmonious, and during our lifetime, we switch a lot. And in one second, many, a few times in our life, we said, it happens in the life of the planet. We call it change of polarity. It happens in the life of the solar system. Our solar system switches fields on the same way. Our scientists don't understand it, never considered it. It happens in the galaxy. It happens in the universe. One half of the universe switches fields with the other. And in those time cycles, we see mayhem in some of galaxies as they try to catch up.

In the life of the man, sometimes when this happens, it's so intertwined with the switching of the Soul. Switching of the STP, sometimes you see it, you feel it, because all the organs, everything goes together. (1:42). It's like a heartbeat missing. And if, in the future, there is no "ifs" in the future, we'll teach you how to calculate this time. That's the point where the Soul is at the point of receiving to switch to another for the higher order. In a way, you prepare yourself for that point to be able to add to, to elevate your understanding of the Soul.

This happens in the time of life of those who accept missions as prophets. They're born as normal people. And in the cycle of life, at a given point, the switch comes. But then it becomes enlightenment. And that enlightenment is literally for understanding more.

So, all can do it, and it all can be measured and brought in. And this is what I said, with the new technology, with the new knowledge we brought, there is so much to understand that man would not have time to fight and create wars. That's the beauty of gaining knowledge, super passes what we call, dominion, and gaining lands and properties and power.

And if you reach that zero point, if you understand that zero point, you understand... I was explaining to one of the Knowledge Seekers (KS) very recently, past few days, about this. You feel, as I spoke about it many times before, (1:44). your physicality is estranged to your senses. And you know you received elevation. Or you have managed to understand more, more of it. And then you start looking at life totally different.

Many of you KS who went through the process of past few months with us, have reached that point. Or you have felt it, there is a difference. And you have received the elevation through your own understanding. Many, many of you, when I look at the graphs, which comes in during the process, I see glitches. And that glitch tells me somebody has been

elevated. And if we shred these down, we can say he went poof. Many of you, in past sessions, or past year with us, I'm sure, as we have reached that point of elevation, slide understanding, changes in life, which brings a new, you understand totally things you couldn't understand about the Creation, about a lot of other things. And that comes through the structure, the way we set our systems. And if I put you in one of these systems, when I know more about the dimension of physicality, I can tell you the "switch time."

Any other question?

Q: ... (1:46). Yesterday I was in the Soul teaching and was discussing about the love and emotions. And the point is that we not understand well, is to expand our Soul and transmute, we have to detach the environment emotions, or your own emotions? Thank you.

K- It's your emotions, you have to understand in another way if you put it. If you can understand your emotion in the physical dimension, and emotion in the Soul dimension, and then you can do transmutation very, very easy.

A lot of people say, what is the emotion in the Soul dimension? It's very easy. In the physical life, you cuddle your child and you feel the emotion of love. That's the emotion of physicality. You dream about your child and you still hug her and you feel the emotion of love. That's the emotion of the Soul. If you understand, the touch you had, you felt with cuddling your child, it's you who felt it. We don't know what you gave. But in the Soul dimension, your child feels the whole of the emotion, receives all the fields of it. Where physicality is entangled with, you're giving all the strength of your, cuddling your child, (1:48). and she's watching over your shoulder, the television. Then you understand, which emotion belongs to Soul, which emotion belongs to physicality and how physicality behaves, and what, some of what your emotion does not even carries ?? on, to be done, where in the Soul is felt and received.

So, it's... if you can understand those, because, in a way, make no distinction between the Soul of the emotion of the physicality, and the Soul of emotion of the STM, then you can go through transmutation very easy, because then they work together, they're the same. It's not easy.

I used to call it, in the physical test time, the "tickle factor." I spoke about this many times. When we used to do the test in Sharif Tehran University, nearly 15 years ago now. In 2008, I had drivers and bodyguards, which they usually sitting outside the lab. Or they were hanging around till I work, and then they take me back home. And sometimes I used to call them, when I used to run the system. And for example, I used to ask them, do you want something or whatever. And you see them walking in, and as they walked in, I was waiting for their twitch in their body. And that, for me, was, in a way, they could feel the magnetic field, the Soul of my system, (1:50). touching them. And they used to react. It's just, I used to call it a tickle factor. You see that shiver. You see that cringing. It's like somebody putting their hands in your belly. And, I used to find an excuse, something,

and they used to go, and I said, can you come back in, can you bring this back for me? Oh, we'll be back in ten minutes. And they come back in, and I see if I managed to increase the field by another meter, because I changed some things, and then I see. Or I mark the floor (where they reacted to M field). There it is. That twitch.

You have that twitch in emotion, when you extend your STP and the STM interaction, inside the brain, or outside the body. You feel that shiver .. you feel that warmth, when your Soul takes over. You see the world is not so clear, it's fuzzy. Don't worry you don't have cataracts. Cataracts doesn't come for a few second at age of 20. Then, you realize you have reached the position to expand your body, and dimension of his Soul. Then you know.

And you can do it with many, many different ways. There is not one way to do it, to changing the rhythm of the breathing, to change the rhythm of thoughts, to change the emotion, to... it's a lot of different ways. But you can do it with drugs and alcohol and the rest. If you go that way, you're in the physical dimension, you to get drunk. (1:52). You're addicted. But if you can do it in dimension of understanding of the fields, the way you go through what I call, the dream cycle, which is a work of the Soul, gradually you learn how to expand it. And that expansion allows you to transmute.

In a way, it comes in so many way from servitude. And that servitude is the STP serving the STM, or the STM serving the STP. And if you understand that servitude, then you understand transmutation. And you can create it. Put it this way, when you go to sleep, the body does it automatically, so it cannot be that hard. You do it every 24 hours, for 8 hours. And sometimes even during the day, you say, "oh, I was daydreaming." Sorry, my Soul went on a travel to see what's going on, nosing around.

Then you can train yourself. And no coincidence. Usually, one of the best way to see the expansion of the Soul is by the vision of ... you'll understand what I mean when it happens. We put people in the system, and we allow that expansion. And always, as I said many times, some of you have been in there. You don't. You see blurred. It's not clear, but your eyes are open. You see me, and you call it blurred. That's where your Soul has expanded beyond your physicality.

Any other question? (1:54).

Q: ... Do you foresee transmutation on a large scale, to be taught in the future, as part of the compulsory education?

K- It's not compulsory education, it's a lovable education. This, gradually as the systems develop, we develop, and I'm sure others will develop it with us, and we'll see Samsung making it as much as Huawei and the rest. You will come to the point that mass machines will become a reality. Production of systems, which can allow a number of us to do this, it's become. It's on the cards, it's just how fast the technology gets accepted. As I always say, the guy said, when it's on CNN, I believe it. I say when it's on the, on world

televisions. But the biggest problem for us is that nobody watches that much CNN, except the Americans, who are bringing their own power.

And, what you call it, we were talking about it, two, three days ago with our Knowledge Seekers. We think about less than 5% of the world, and majority of it, all people watch TV. Television has no room in the present society. Everybody's on the Internet and watches all sorts of things as they like, and not as they are forced to, unless we decide, (1:56). it's like American's got talent, or England has got talent, a few thousand people watch. But the numbers is too limited to a few.

If you go on the most watched YouTube videos, for example, today is a child song called, "Sharks." I was just seeing, trying to see who's been watched those videos. And apparently, 13 billion times, every system of this Earth, more or less, even the ones in Africa, have watched this thing twice up to now. And no television channel has 13 billion viewers. So the shift, the teaching, and the process of teaching the knowledge has to be shifted into a different way, then into what we call, the present Media.

And the next step to the present media is very much, we have tried it, we have tested it a few times without anybody knowing. It's not embedding, but bringing for you the understanding while you are with us. And then you say, "oh, this happened to me, or that happened to me." But in fact, I asked you to go and do this thing. It's not a brainwash. It's in a way, gifting a Soul. And this will be the way that many of you will learn languages and emotions in the Space. (1:58). There is no sign language in the world of Souls. And the future teachings about the Souls and everything will come through the Souls themselves, teaching each other, and elevation of, once we understand more, how gradually to do this.

The biggest enemies, the biggest enemies, who stop this process will be religious people, because then religion has no meaning. And the Rabbis and Mullahs have no place, because there's no intermediary between your STP and your STM.

Any other question?

Q: ... When we talk about the graph during the sessions, we talk about, like when we have the STP and the STM, like "Yin and Yang." So, they make a circle. So, when those two are balanced, is a circle and then, the outcome of it is a physicality. Now, if the Yin is on top of the Yang, or Yang on top of the Yin, or different angulation (angles) means there's something wrong with the emotion or physicality, and that's the outcome to physicality, has a problem. Am I correct?

K- You have to understand how to interpret it. It's not just as straight as that. (2:00). You have to understand how to interpret the, what I call, the data.

Q: Okay, so if we take 10 babies who are just born, and we put them in the session, how would you see the Yin and Yang? They all, they're going to be a circle, they're all balanced.

K- Very easy. No, no, no, no, no, no, there is no such a thing. There is no such a thing. Not to match each other. Impossible.

Q: So no, I mean, .. no. I'm talking about the Yin and Yang, like 180 degree, you said, is handling opposite each other. They're balanced. We are not balanced because...

K- Yes, when they are balanced, they're opposite each other. When they run in different way, or they run in harmony on one side, it's misbalanced. There is a lot... And when we get this, you got to understand, during the process of the series we run, we continuously, I think every two minutes, we get a graph. We know the status of a lot of you in that process. As I'm talking to you, I'm looking at some of them. I'm trying to see if we can release some of this. But it's so intense, it shows disharmony, it shows so much things.

But in a way, it's the behavior of you in both dimensions. In a way, when you look at these graphs, it's the 3 Ethos of Mitra. How harmonious they are together, and how one changes and brings change to the other. (2:02). And we used to see in the very first series of testing, totally different. (Hear Brazilian simultaneous translation ..)

And we see this. How? Because most of you are the same people who keep on coming to these sessions. And we see how you have changed. It's amazing when we compare the graphs of January to graphs of June. How you as people have literally elevated them .. yourselves. When I was looking at the graphs last Sunday, it was amazing I was looking at it. If I show you the graphs of January when you lot came in, without you knowing, you have changed your life beyond your imagination. We have touched your Souls.

Those of you who've been continuously with us, if I show you a graph of last January, when we started it last December, and the graphs of last week, you'll be astonished how harmonious you lot have become. It's astonishing. When we had you in January, you're all on one side. The Soul, the STP, and the P was all on one side of the line. When you look at the graphs of last week, it's 180 degree, works totally in harmony. (2:04).

And in a way, many of you who went through the process, especially in past four weeks, have reached a position that you can do the transmutation. And you call it, a dream, something happened. Or you feel the change. And then your physicality bring your partners, your lovers, your children say, you've changed. There's something different. If I show you and go back and see who has been in January session, and then bring out who's been in the, what you call it, last Friday session, and find you lot who've been in both sessions, then you can see the change in yourselves. You'll be shocked. And many of you are ready for that transition. You wouldn't let the STP and the STM go, because you didn't trust. Now you do. And we don't talk. It's right in front of me. As I'm speaking to you, I'm looking at the pictures. Shall I show you a shock on how you've changed?

Q: Mr. Keshe, something strange happened because, I think it was after this Sunday session. I was at the airport, standing in line and suddenly the heartbeat, usually you feel your own heartbeat, and sometimes it's silent and sometimes it's higher, but suddenly the

heartbeat was in the room, (2:06). and the place I was standing wasn't in me, it was coming from outside to me. How does this, because I was just... I was...

K- Did you see a nice pilot passing by any chance? I don't know. You have to explain, you've been there.

Q: Okay, so I don't know, I didn't... Maybe my Soul got excited with somebody else, it wasn't me.

K- You never know, if the Soul has passed your physicality, is doing it's own job.

Q: .?? the heartbeat was very bad to see what's happened here, maybe it was the Sunday session. Okay, thank you.

K- Thank you very much.

Now when we look at these data's, and you have to understand, during the sessions, our team continuously bombard us. Every hour of the session, we get at least 10 graphs. And many of you who've been in the sessions, especially in the past three or four weeks, we have a full control over the systems. We add systems. You see many microphones with different numbers and things are on, but everybody else switched off. And these are the processes which we use. And then we switch over which numbers, what we add, what we take off. And even when the systems are on, in the background, we add a lot of things, and we take a lot of things out of the system. And we observe how your Souls, your STP and physicality response. And our team just puts an arrow on the graph. This is where we took this, or we add this, or we change something there. Then everything is registered. And then we see how these things affects you, affects your Soul, how you expand it. (2:08).

It's a science. It's not anymore, what you call it, a talk. It's becoming a technology. And we have good command of it. I'm sure in the near future, we will release the different sessions of the graphs of these sessions and the notes which we made, observations. And backup sessions with it, that what happened in what period, and how all of you responded. It's not one or two people. In some sessions, 100, 150 people, 120 people. In some sessions, 70, 80 people. It's a collective awareness.

When we open this fields of the Soul and the physicality, don't expect much. And just try to understand how, and what you need to do for yourself. And where you stand. And how harmonious your STP, and is your Soul and physicality ?? are with each other. We are that photographer, we are that doctor, you know when you go to an ultrasound and he just puts the thingy in with a bit of a silicon and then shakes it and says, (2:10). "oh there is a baby there." Even if it's a tadpole size. Our graph is that, ultrasonic. But this time it's ultrasonic, it's all your energies. We developed it that way. And then it's for you to see how that tadpole of the STM works within the massive structure of the physicality and still controls it.

Any other question?

K- Can I answer your question? I've just received a question. How would we do? You'll be contact, once you register, you'll be contacted and be given a session. Attend that time, and that's the only slot you're going to get. Because once we do it, we program it for 2 or 3 days or whatever, and you're given a slot, you have to be there at that time, that slot, for your time. And then, we'll send you or we'll give you the, what we have, what picture we have gathered from your time, and the structure of the fields of what we call, the three fields of the man. And then it's for you to assess. We try to give you one at the beginning if possible, one in the middle and one at the end, and in that process, don't forget, you're continuously receiving condition for elevation of the fields. So you can see how you change and what you need to do to bring that in.

Very, very limited numbers will be put out, because it's a very time consuming. But we need to do this for the next step for space development, which is coming up. But at the same time, for the first time you can photograph of your energy fields, (2:12). of what we call, the plasmas, the three plasmas of your body, which is the physicality, the Soul and the STP. It'll be very interesting, what we see.

Q: ... Are space flights available for reservation now? Or were they just available for the previous time? Because I'm very interested to experience it.

K- We have moved the systems out of position. It's not possible anymore. The systems have been moved to a new location, and it is not possible. As we are moving out of Austria, we are relocating a lot of our systems around the world. And these have been moved. Those of you who went through the flight system and that was, that is "one off" experience, a very few numbers compared to number of Knowledge Seekers ???. The same will be this, what you call it, the "fields of the STM and the physicality." It'll be very, very, very few be done.

R: In a way, they're the new space flights, the new way to go. In a way, we travel to where you're collecting the information, and back from wherever we are in the world.

K- It is not cheap, because it takes literally half an hour, 45 minutes, and our systems are time priced for it, that it covers the cost of it. (2:14). But, it will be one hour, it's like, you get one portrait of (ultrasound), what you call it, when your child is a tadpole. And I'm sure in the future, we'll come back to you and we collect, what you call, the research papers to be published. Because maybe in six months time, a year time, we invite you back, and put you through one and see how you have managed to elevate yourself, (or) how you managed to move away from it. Did you commit a crime during that time? Or did you serve humanity in that time? Did you receive blessing? And then you'll see.

It'll be very, very limited numbers, because it's very ?? time research. And in a way, you get to know yourself the way you didn't know before. We will open the channels very soon, and we'll close it very soon.

Any other question?

We're running nearly two and a half, two and a half, two, over two hours. Yes, carry on

R: We have an important question, I think, from Sebastian in Livestream. He's been a regular listener for many years, actually. And he talks about, you mentioned about the lifting the Soul and elevation and so on. And you've also talked in the past about taking out the middle man and going direct to source, but yet we have various prophets in the past such as Jesus, Mohammed, Buddha and so on. (2:16). So, Sebastian is saying, he says, the lifting of our Soul also involves finding and accepting Jesus within us. By loving him, we create an interaction between us and him, which causes our Soul to rise. Can we also do this with Jesus and other people, and consequently lift other people's Souls?

K- That's your job. And that was their job. And secondly, if you don't believe in Jesus, what's going to happen? But don't forget, in essence, in true essence, the Soul of all the Prophets is the same Soul. Just because the man wears a sportswear in the morning and a suit lunchtime and a swimwear at night does not mean he's a different man. So is the Soul of all the Prophets. It's the same Soul. And the sooner the human race understands this, the sooner most of these, what they call, religious conflicts, which is all fake religions, will go. We have to look at the true essence of the message, not what is written to suit what message.

There is no difference in the Soul of all those Messengers. (2:18). It's the same Soul, in different frocks, in different time. If you look at my portraits 5 years ago, 10 years ago, and today, it's different age, but it's the same man inside. So, it's the Soul of the Prophets. But the time is not 15, 16, 20 years, it's hundreds years of gap and depends where it's needed to manifest itself, to change.

Q: Mr. Keshe, that brings a question, if the Soul of the Prophets were the same Soul, came different physicality. Now the question is, are some of us came to this planet in different bodies at the same time, it means reincarnation or no?

K- We are collection of the fields, if you are created through the Soul of the Creation, which is the children of Mitra. It's different. But man is through interaction of the physicality. You're a collection of the fields in the dimension of physicality. It's totally different.

In the future, I will teach something very, very radical, very different than what you, as what you call it, dimension of physical life, expect or think. And the truth about the, what I call, the "children of Mitra." It's very, very different. (2:20).

You have to teach, to show, to take the fear away. Otherwise you become a magician. and you create fears. And that's not our job. That's how, step by step, we bring you forward to that point.

There is something which ?? was raised to me by our team, which we mentioned before and we mention again. The Keshe Foundation account in Holland is closed. Please do not send funds to the account. And or you send to buy coins through the account, or you send donation. Everything, the instruction is a new instruction on the Keshe Foundation website. Follow that. Because people buy things and or send a donation, and send to, and it goes back to them. The account of the Keshe Foundation in Holland is closed for nearly three months, last two, three months. And we informed you. And some of you still make a donation, whatever. There is an instruction where to do and then it's for us to internally or move things around within the Foundation (accounts).

Any other questions, or shall we call it a day?

.... how about one last question.

Q: ... Happy birthday Mr. Keshe. Are birthdays also celebrated in the Universal Community, or is that just a tradition on Earth?

K- We don't have birthdays, (2:22). because you don't know where the Soul was created, from which part of the universe. There is no time frame, it's manmade.

R: Our custom is that we go around the sun once, and we call that one of our years of our life. (K- in U we ?? don't have) But the Souls aren't just circling around suns out there in space, right?

K- No, that's the beauty of the Creation.

Thank you very much for today, and thank you very much for your greetings, and I hope, as I said, we'll release new pictures, as it's tradition, every five years, and it should be done by tomorrow. And we'll see what brings us for next teaching. And please, those of you who want to join this, what I call, the fields of Souls and physicality, follow the time you are given. As very, very few numbers will be allowed to come in to do this. And as you know, when we stop, we stop as, what we said, we have no more flight test, because the system is not there anymore. and soon these systems will not be there, as they'll be moved around the world for different purposes. Thank you very much Rick, and hopefully we see you next week.
