(:16)

K- Yes, thank you very much. Good morning, good day to you, as usual. Wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. As usual, we welcome you back. And as usual, we strive .. to share knowledge.

As I said in the past, recent teaching, we are heading in a new direction, in the knowledge of man, and we are heading in a new direction with the life of the man. Not only on this planet, but it's cycle, in what I call, rotation of life in the Universe (U). In the past few weeks, and in the past, especially recent weeks, we tried to explain, we tried to bring to understand, the new cycle of teaching, the cycle of knowledge, the new understanding. And with this, unfortunately for those of you who are mechanical, mathematical, scientific minded, we have no gadget to show you. We have, but unfortunately, the gadget, the system, the technology (T) is you. And this is the dilemma for many, many Knowledge Seekers (KS). Trusting that this system, (:18) this measuring tool, and this so sophisticated, simple system of the human body, now has come to be tested.

It's been developed over billions of years. Ethos and principles have been taught to it in the physical dimension. And now it's come to off the "production line," and it needs to be tested. And even though there's been many billions of prototypes before, now it's me. I have to find out who I am. What are my capabilities? And, as I always said, now maybe most of you understand, I'm the "last man standing." It's me who measures me. It's me who decides my capability. It's me who decides if this system, so complicated and simple, is going to function. And it's like the new cars on the street you see. It's a car, but no driver. Would I be able to drive through streets without bumping into everyone? Will I be able to stop and go and maneuver and do everything else, drive during the good time of daylight, and drive in the sunshine and the rain at the same time in the same way? And this is the history of man from now on. You have denied this to yourself, but it's been there all the time.

The only way we'll put this system into testing and seeing how it works and bringing values to you to understand, (:20) which part of the system you have to adjust, which brakes you have to loosen a little bit, and what part of the engine you have to increase the power of, as a part of the emotion of the man in your physicality (P). So we have brought you into a testing zone, where we let you test yourself, and then find the capabilities, the shortfalls, the beauties, and everything else in ?? you. The past one and a half years, all these trials with the system, those of you who came on different sessions and you

thought, what is beneficial to me, I go in, was to create that condition for a number of those whose Soul has decided to go to that dimension and direction, and to find out more.

What we do today in the teachings, on the special sessions of Fridays, it'll become a benchmark for the rest of the humanity to follow. To guide us, for us to know us, for us to understand what are the pitfalls, for us to understand what's the strength of me, in both in dimension of physicality and in dimension of energy. My physical life is connected to this planet. My energy life, which I call the Soul of me, is connected to the Universe. I'm not the only car on the road. And this city, this village of Earth, is not the only village in the universe. So now you understand.

Up to now, you drove, you walked, you lived among the physical life of the village of Earth. With this understanding of the Soul of the Man (STM), (:22) you open, you travel the span of the Universe. In a way, from a little village girl, you become the lady of a city. How you're going to behave, how elegantly you're going to walk, and how rough edges needs to be cleaned up, to be tested, to be corrected, that you shine, you stand like a ??, on the Universal stage of the Creation. Perfection. Dance every motion and everything calculated from the tip of the finger to tip of the toe. One mistake will bring it down on the floor. Perfection is the essence of understanding. Consciousness, understanding what emotion in the dancing in the Universe will bring, that will not allow man as a ?? to fall.

There is no one else, except the physical body of the man, and the STM. In the matter state of the Life, you walk, you eat, you talk. In the dimension energy of the man, you connect to the rest of the Universe. Physicality is for this planet. The dimension of the energy STM is for the Universe. A man needs to learn this, in all the teachings. All the promised books of the past, is for today. When the man finds himself, the "Day of Judgment," the day when you judge yourself, and no one else. (:24) Unfortunately, the Creator does not have a bench sitting there, like Ayatollahs, and passing a sentence of death, or life imprisonment, or so many lashes. This is the job of fake believers. This is the job of those who claim to be the protectors. Now you are in the same position. Are you a fake believer and a false protector of that physicality, and nothing else.

I brought you Gans's, I brought you reactors, I brought you Nano coating for your physical life. Now we teach you the essence of Creation, the transformation, transmutation of the fields energy of the Creation. And that is the beginning. The hell is the life of the man on this planet. The heaven is understanding the life in the universe. And the Day of Judgment is on you and no one else. Does not come by death. It comes by the point of maturity.

I used Gans's to show you the energies. Now I use your body, your physicality, to show the beauty of what's inside you as energies of the Creation. In a way, the Creator has already made the Gans mixture, called the body of the man. Now I show it's energy, its central of control. And that is why what we teach sounds so strange, so amazing and so different, (:26) because it's the truth about you, yourself and no one else.

So, I used the reactors and Gans's and Nano coating, to teach you about dimension (D) of physicality and connection to energy. And now, that connection of mixing the Gans of the Copper, the Zinc, the CO₂, the Calcium and the Zinc, it's already mixed up, it's already ready, it's already has a central control called the human body and the physicality of the man and the STM. Now we play with a new toy, now we play with a new understanding, now we play with your life. You play with your life. We show you how you play, how you can play, and how you can take this beautiful dynamic energy to become a flying source, to become a feeding source, to become a source for your life. And why you deny it? Why do we get a cancer? And with all the knowledge we put on the table, the cancer cannot be resolved? Because the dimension of physicality cannot let go. Cancer is dimension of physicality. I bring it to an end when I want, and then I decide when. Does not matter what we throw at it. The Soul of the Physicality (STP) wants to complete the pain of physicality.

Now you understand how I have changed that dynamic reactor to the dynamic physical structure of the man. (:28) In essence, when you know how to walk, you know how to dance like a ballerina, and you know how to jump and how to run. And we have all the knowledge. And we're trying to transfer this knowledge to you. Your physical body, your Soul, is that reactor. Your Soul is the second reactor. Your physicality is the Sun of the light of your existence, and your Soul is the light and the Sun in the world of Creation. As the Sun created the Moon and Earth to confirm it exists, and what it can do, so is the same with your Soul and STP, and the physicality (P) of the man.

As I said in the last teaching, we start a new path, we start a new teaching. Now that you start learning how to play with this reactor, now that you learn how it's there, how it stops this and that, and how it creates emotion. You remember 129 Tesla magnetic field creation in the Cinzano (Italy) in 2014. With a simple system. We created more fields than nations spend billions of pounds to do. Simple man created the system, not the experts with PhDs and all the rubbish papers they put on themselves in different organizations around the world. (:30) And so it's the same. Simple man understand the creation of themselves how they travel the span of Universe. And from that point, how we started the cycle, to understand the fields transfer, understanding how you mix two Gans's and it gave you pain relief, and you mix other things and gave you different field energies and colors and emotion.

Now you have come to that point, that you did not needed to make Gans's to understand this technology. You only needed to understand the interaction of the fields. If some of you were knowledgeable enough, gathered enough what I call, technology's of understanding, you didn't need to make Cup 1 and Cup 2. You created the energies of it within you. Is this why some people never got it, never got infected? Because the knowledge of existence through viruses has been and is part of the Soul of the structure.

Very interesting point, which I raised in the private talks. Now I put you in the public talks. Many of you caught Corona. Even some of those of you who came to the conference in London reported back that you were infected by Corona. Ask yourself one simple question. (:32) Those physicality's which were touched by Corona, are they

getting ready to become, have learned, the Passengers of the Universe? Because the Soul has got a taste of chickenpox, flu, now corona, and is getting educated, ready, vaccinated, for the travel in the dimension of the Universe. Does it mean that the STM is getting ready to become part of the Universal Community. And in some way, is getting vaccinated, is getting introduced to dimension of the fields of the Universe, as viruses.

The other question comes, and this is much ?? of a lot of you, is some of you, very few of (you), percentage of you, who did not get Corona and Corona and other viruses never touch you, are already Passengers of the Universe, guests with us on this planet. As you have already been educated, "vaccinated," and in the dimension of the Soul, be the Passenger of the Universe. To this, I will answer in the future. To this, we'll bring the dimension of recognition.

As I said last week, a new cycle of teaching has started. And this cycle is for the STM. This cycle of teaching is to take man to show him how to drive, (:34) how to stop, how to enjoy the Sun of the Creator, and get warmed by his rays. And from now on, the teaching mainly will target for man to be ready to travel in the dimension of the STM. Book 3 , the final destination in the temporary road of the travel of the STM.

But you've got to remember, that within your RNA, sits the whole history of the creation of the Universe. What is connected to the dimension of physicality, manifests itself in the DNA of the man. Universe has his own RNA, and Universe creates its own DNA for manifestation of physicality. And you only see part of it, which has Inertia strength of the physicality of this planet. If you understood the past three sentences, you understood the essence of the Creation of the Creator.

Now you understand, what we teach, and why we are here to teach. Because now we change those reactors, dynamic reactors, Nano coating, the Gans's, in fact, to you, and yourself, and nothing else. (:36) The Gans's are the body of the man. And the dimension of the rotation and the speed of the rotation is the STM within it.

In one of the tests in the recent past, I explained to one of our Knowledge Seekers. You want to see the truth, you want to see the fields, do not pile in the Gans's, because it brings a dimension of absorption of physicality. This is why when you as Knowledge Seekers use the Gans water, you get a better result than the (pure) Gans's. And one drop carries the whole of the essence, not the whole cup.

You want to travel the dimension of the Universe, understand the creation of the Amino Acid (AA) of the Universe. You want to live and correct in the dimension of the man's physical dimension, stick to the AA of your Gans's. You want to live in the dimension of the matter state, wash the AA, find the AA of the solid. The heartbeat of it, the essence of creation of it. Then, you can become the stone. Then, you can become a tree, then you can live the life of the man, and then you can live as an energy fields in the Universe. (:38) What line of connection to dimension of Inertia of the existence, can you find and understand, and create within your Souls, to become that point of creation? Then a man can be a stone, a tree, a man, and a Passenger of Universe within the same vessel.

When you're burned, you become nothing but ashes. The dust, that if you bring the Soul of it together, you'll make a stone. Some races clay the ashes to statues. Some path of belief use the same ash to make an ornament of the physicality. Now, you can do the same. If you understand that, and without being burned and become ashes, create the dimension of the physicality and become a stone. Have your Soul with it. And when the time comes, change into a man, a tree, or anything else.

Now you understand the teaching of Bahá'u'lláh, bless his name, that even a stone has a Soul. As the man can make, understanding of the operation of his existence, the Day of Judgment of his life, to create a stone out of himself. To become the observer of the environment, to become there for time to come, (:40) when he decides to become the next.

Now, as I repeated two or three times today, you understand. You have become, you are, and you're testing yourself to show the rest of us, the same as the reactors in the Cinzano. Can collection of your field create the fields more than 129 Tesla and billions of Tesla's become passenger of the Universe? And no one else can do this except you. And now we are the teachers. We're just providing that lab for you to test yourself.

One of these tests will come in tomorrow. Those of you who joined for the session of the light, do not look for the light, look for the enlightenment. If you look for the light, you're still in the matter of confirmation of physicality. If you get enlightened, understand little bit more, you understand and you start the path to become the part of the creation of the Universe. As I said, there are no churches and no mosque and no synagogue for any of you to join in. You are your own mosque, your own Christ, your own Moses, your own Mohammed. You live by the Ethos of Mitra and you exist in the Universe by that ethos. Once you break the Ethos of Mitra, you have brought your own demise. (:42)

You need to learn to love, you need to learn to become the lover, you need to learn to how to give. And that in the dimension of the Soul. For that reason, Thursday 21st of December is a celebration of the birth of Mitra. We celebrate her life and we teach you how to love. On the night of her birthday on 22nd, on the 22nd of December we teach you how to love. We teach you how to become Mitra. Without that we cannot let you to go in the Space. Without that we cannot let you become Passengers of Universe. Because once, as I said in the teaching of last week, ?? when that love touches you, you'll never break the Ethos of Mitra.

As we start the process of transmutation, we need to teach the principle of loving, giving and not to take. And that process starts from ?? this second and we emphasize and we teach you till you feel the love, the giving, understanding and correct conduct.

Tomorrow's session we'll teach you how to transfer the fields, how to be enlightened. On 22nd you'll learn how to give, how to become a lover, (:44) and how to start the process of giving without expectation to receive, even though you receive, that you become the giver. In a way we fill in the cup of the Soul, that by its overflowing, you learn the

giving. Because once overflowing, it's not yours anymore. You have given. And we start that process.

As I said, we celebrate for man understanding of the life in the Universe. We celebrate for man to live a correct life in the Universe, as the Intro (video) said. We clean up the false emotions which created in the RNA by the operation of the DNA. Not depending on anything. As you know, you'll receive what you need. "Thy shall not kill" was in no way brought up to be for the dimension of the man's understanding of his dimension of physicality. It was brought in for dimension of Universe. Once you understand in the Universe, you receive what you like, what you need, then you shall not kill for it, you bring that ethos to the dimension of physicality. So you have to touch the love of the Creation, the love of living in the Universe, to correct the physicality.

One way or another, we'll bring that to this planet. Be of the teachers to show how to conduct outside. (:46) As I've said many times, we are "Universal Teachers," because we teach you the life in the Universe, the educated way to live in the Universe. And now you understand why we are called Universal Teachers. We are not prophets. We are above all, directly connected to the Soul of the Creator, as He teaches through the dimension of physicality of the man.

Now you understand what the first words we always said. As now you're getting prepared for yourself, to the Day of Judgment of yourself, to become the Passengers of Universe, you need us, as Universal Teachers, to guide you, to teach you. And now you understand the meaning of Universal Teachers. Never claim to become, never claim to be a prophet, because it has no "profit" for us. We have access to all. And now it's for you, as us, as the teachers sitting next to you in that car, with the "L" learner driver behind you, how to conduct. And the first three rules, you sit in the car, you fasten your seat belt, you watch the mirror, you turn the engine on, and you watch what's going around you, and... the Ethos of Mitra. to be correct within you, within your environment. (:48) Think good, talk good and do good, or act good.

And now you understand, who we are and what we are and what we are to deliver. Even though we live in the dimension of physicality of the man. It's for you to decide, how you drive this car, which is the STM, in the dimension of the Universe. Even though, in the past we have manifested in dimension of physicality, any name you believed, (it's) still the same Soul. And a teacher has to know where to start to teach, and how to attract his students.

You got to understand, that now it's you, in that lab as one of the reactors trying to create the 129 (Tesla). Then you understand, you will not know if your thinking is good, if the emotion that brought that thinking is good, that brings a good ?? talk and it brings a good walk, unless there is another Soul for you to manifest yourself to, and understand how much you have learned from the dimension of physicality and its emotion. (:50) Then you understand. We test the STM, with itself existing with the dimension of the Universe.

From now on, the teaching is how man, for man, to live in the dimension of Universal Community, where the Soul next to you, the man you held, the woman you held, in the dimension of physicality, would that Soul be your Soul, that you will test it with first? And then, would that child you hold, which you gave a physical birth to, can you connect to that Soul? Because now, nothing is hidden. You hid the chocolate you stole. You can not hide from the Soul, from the man who you stole the chocolate from.

Now you understand. Now you come to understand, now you come to be part of. Now you understand the two dimension of life of physicality, how it can help the dimension of the Soul. Now you understand why we brought you to Manchester and we brought you to London, and we brought you to the teachings, is all continuous development for you to recognize the beauty of yourself. (:52) How to run that engine. How to work that engine. How to run that reactor and understand what rotates outside in dimension of physicality ?? has a Soul within it. But this time, instead of rotating, has learned to walk and talk. And the other time has learned to stick to the ground and go up. And the other time decides to be the rock, that that tree can lean against to grow.

In either way, the cycle of teaching is complete. In a way, we just got to teach you where is the red light, where is the crossing, where is the downhill and it drops you into an ocean, where is the uphill struggle to get to the mountain. And these are no different than the dimension of physicality. Universal life is comfortable if you understand how to live in it. And it's not that you just walk in the park. You have to learn the rules of the park. Do not litter. Do not urinate against the lamppost. And do not bring your dog, the dimension of physicality, to foul all over the place. (:54) Tame it, train it, that when it manifests itself in the dimension of physicality, in another dimension of position, it does not bring the bad habits of an untamed dog. It shall not kill, it shall not destroy, it shall not create wars, and it shall not be the behavior of the man of today on Earth.

Now let's see how many of you understood that you came here to see MaGravs and reactors and you never realized the target was you from the beginning of the time. You are that MaGrav, you are that reactor and everything within you is set to do. If you have not understood something, I give you a clue. How the MaGrav is created out of you. Look at the, through the channels, the twists and turns and the pipelines, in the cycle of your physicality, if you understand it. Look at your eggs and your testicles and all the holes and calluses and the pipes, and the way they shaped. Look at the structure of your stomach and intestine and look at the structure of the pipes in your brain. You are the MaGrav and all the coils in it.

Now you understand how the game is played. And how the fields within that decides if you receive a saving or energy, or you can have a free run. (:56) Those of you who looked for matter state, physical dimension, energy, plug yourself into the wall. And those who understood about the work of the energy transfer in the dimension of the STM, sit on top of the MaGravs, as I said many times, and feel its energy. Either way, you are the system. Either way, it's the Soul of the system which counts. If you stay in the dimension of physicality of the man, you still got the blue MaGrav on the table. And if

you understand the energy transfers and existence, you're connecting to feed the whole of the Universe and environment from that.

Now you understand. The game has been played in a full cycle. And now it's for you to understand how to play with this dynamic, physical, beautiful life. It does not need another dimension. It has another dimension, the dimension of the STP to test itself. And then how to radiate. And then how to become part of the Totality. As I said, we are Universal Teachers. We can teach in the same classroom as in the villages, I said last week. A toddler in the same room as this class has only one room. And to the boy who sits for, to go to university, and even we can bring the education of university and the PhD in the same room. (:58) It's just that if there is enough seats in that room, as the knowledge is the same and the teacher the same.

Now you understand. You are that vessel. And your conduct by the Ethos of Mitra decides, your position, the place, the time. And if you understood and elevated your Soul, understand the position of it, to become that passenger of the Universe. You have two choices, you are ejected and you have to accept the exile wherever you're put, or you decide to become the traveler and still meet and see the same jail, but as a man who can come out of it, when he wants, because now he has done it through the free Soul.

In a way, as we say in Monopoly, understanding the essence of your creation is that "jail-free" card in your hand. You can meet where the jail, where the Soul will be for rest of its existence once it departs and decides to find a place. Or you can become "jailed" in that place and time. What happens when you die? And what happens when you understand in how you can elevate your Soul in that, that jail becomes the heaven, and not a jail, for the others to enjoy.

In a way, by teaching of now, today, and time to come, we teach you how to have that "jail-free" card in your hand, (1:00) if you decide to go to jail. And if you decide to avoid the jail, or you decide to meet the visitor, and then because you know where the jail is, if it is a jail, you can do good, think good, and talk good, and raise the level that you get the freedom of the jail, elevation of the STM, by man himself and no one else. Because if you're going to steal to (?? find a way out), you'll find (the) jail sentence longer and harsher. If you bribe to get yourself out, you'll be caught in another dimension. So you'll come to understand. The teaching is for you to never get to the jail, but have the freedom of the choice. But for those of you who can fail, who think you can fail, we are giving you that "jail-free" card. Maybe, as you know the game, you only can use that card once. Once you hand it in, you have to wait for the next turn when that card turns up in the pack. And if it's going to be your luck to get it.

So now you understand the purpose of the teaching. So now you understand the process of the teaching. And we change the gas reactor to a dynamic reactor. We just changed the fuel from a gas to a Gans. (1:02) And now we change that to the body of the man and the mixture of Gans's. A more complicated mixture, but in essence, the creation of one's Soul. Now, I welcome all of you to come in the Cinzano and sit in the position and see if collectively you can create the lowest field in the Universe. That it's a common

denominator allows you to see the beauty of the Creator. In the physical dimension, we showed you how bigger fields we can make so easy. In dimension of the Soul, we teach you how humble you become, to become the lowest, to reach to the Creator. Now, that's another process, and in the coming time, you will learn.

We go through a break, we come back, and I hope, you as Knowledge Seekers, those of you who are not here to learn how to make a system, for the first time you found out, you are the system. And a master teacher knows how to teach his students. And we are masters at our job, as we come from the Soul of the Creator. Rick, take us through a break and we come back.

>> **BREAK** >> 513 KSW November 23, 2023 (1:09).

K- As usual. It was a very bad news to this teaching, huh? Because it was the 13th. Now you know, you are responsible for everything. And, number 513 was well put on. If there are any questions, we answer.

Q: ... You mentioned that man will teach the Universal Community transmutation, and in exchange we can learn from them more advanced transportation systems. How far in the future do we think for this to happen?

K- The question is put the wrong way. (1:10) How far in the past they brought us the knowledge? I think you got your answer.

Any other question?

R: You mentioned before there's, I think, two times in the history of man where the systems have been offered. And this would be the third time?

K- We... It's the teaching, it's a knowledge transfer, it's not something unique. If I can put it in a different way to be understood. If you go back to the paper, which I've mentioned

many times, called, "The Station of the Scientist as a Prophet," the enlightenment of the scientist like Tesla, comes through the Soul of the Creation. Not from within the man. So if you ask when will, I tell you, you've been asleep. You already have.

The enlightenment of the prophets or messengers in the name of Muhammad, Tesla, and whatever, (1:12) who brought positive construction to man in the social life or the physical life is the same. So as one got enlightened, so is the other. And it's for us to understand and appreciate this. And if you ask, "When we will come?" I tell you, you've been asleep, it has so many has come in the past. It's in the history of the books, the holy books, that the time when the process of the coming of the Messiah starts, man will come closer to each other. In a way, those days was a camel and donkey and travel. And in 1844, when Bell or whatever made the first call to connect one continent to another, one room to another, was one step in that dimension. And if you understood the teaching of today, this is the other step towards the connection of the whole Universe. And not just the man from one call down the pipe to the other one, "hello."

Now, we showed you, in a way, we have said "hello" to your Soul and see where the other answer comes from. Because it's only you who knows who's on the other end, which is you. (1:14) So when you talk, when we come to, you already have received that gift of the knowledge from the past, from those who've been the Passengers of the Universe, and they become themselves the Passengers of the Universe.

As I said, you have a "jail-free" card, maybe once. Try to elevate your Soul. Try to understand. Try to be enlightened, that you have never need (of using that card), and you can jump that "jail corner of ??," of life. Because once you get in it, once the number ?? called, you missed the start point. You have to go to jail. But if you manage to go through and jump over the jail, as I'm sure many of you played the "Monopoly" game, you can pass the start point again and again. And in a simple word, you go back to the start point, the Creator. When I used to play Monopoly in the middle of the night and during the day, and in the sunshine, and in the shadow, and in the rain, with my brother, I always used to say, "When will man understand this?" (1:16) Once you get in it, you can't get out of it. But you can always go back to Source, as long as you're out of it, and elevate yourself to be able to understand more. Those of you who died, they missed the physicality, you carry no free jail card. You're sentenced by your behavior, your conduct, and your life. And that position is decided.

In a way, you can still pay a visit and say, I do not like to end up here and to be what it is to become, and I can elevate my Soul. I can become humble enough to go to the start and be given a chance to start again. Life of the man in the Universe is very much a game. But it has no boards. And the board of play is the Unicose. It's how you play it. How much you understand of it, throw the dice of life the correct way.

Any other question?

K- ... Can I come in please, before something? I had to say, that I wanted to say. You know Rick and other Knowledge Seekers know, this is for your information, it's pure

information. There is a... Rick do you want to explain it regarding the Facebook? Because we've been hitting one of the ?? something in another corner. (1:18) Would you like to explain if Knowledge Seekers receive such a thing not to do?

R: Right, there's a... basically it's like a virus going around in Facebook, but it's a... it seems to come from the Admin of Facebook, and they say that your account is in jeopardy, and you must click on this link in order to reset it, and so on. But, if you click on the link, then it'll take you to a page that wants your login information, and if you put it in, they'll take over your Facebook site, your page. So, let's see if I can be more... let me get that up, so I can read part of it to...

K- Can you show them how you recognize it? I have it if you don't.

R: ... (Shows what the hackers send you to take over Facebook account). So this came up, where it says, "Important notice, your page, the Keshe Foundation Spaceship Institute, will be temporarily suspended due to multiple violations of our Community guidelines." Which could be quite shocking, but not, you know, that unusual, if you know how things work. "If you believe this is a mistake, please submit an appeal for review, before the account is permanently suspended. Appeal here." (1:20) It gives a link. And, "If you do not verify, our system will automatically lock your account, and you will be unable to use it further. Thank you for helping us improve our services." Terms of Use, the 2023 Inc. That's kind of suspect in itself. But at the very top, the most suspect thing is, it's called, the title is, "Add Busines" or "Busines" It's ... they spelled business wrong. They left off the "s" at the end of business. So, that right away, kind of is a warning signal to me, that something didn't seem right. And I've received a similar warning to this previously, months ago as well. And I looked into it and I could see it was some sort of scam page, so I didn't put the info in and I also found out that where it was coming from was a, what you call it, a messenger account, not a Facebook account. So, when this messenger sends, you know, Facebook does not send notices through messenger, they do it through email or through direct, through Facebook. So, again it was kind of suspect there as well. In any case, be careful with such things and try to look into it before you put in any sensitive information that could allow someone, like a password for example.

K- Apparently they take over your account and they make you admin, till when they come back, what they can, what they ask you to pay or whatever. (1:22) Or they tell you they have a picture of you or whatever, just ignore it. Anyway, thanks very much.

R: Those were the two, the two key words you told me many years ago, Mr. Keshe, in terms of trolls, which is, essentially that's what this is. And ... when I was getting all wrapped up in trying to defend the Keshe Foundation from trolls, and trying to rationalize with them, and back and forth, and back and forth. And you told me two words that solved everything, which was, ignore them. It was the hardest thing to do because you get something like this for example, you can't, it's hard to ignore. But, in this case, it's the best thing to do is laugh it off. Now, of course, if it really comes from Facebook, you might have to take some sort of action, but that's not as prevalent.

K- We get matured.

R: Yes.

K- I get educated. Thank you very much. I think if you go on the store of the Keshe Foundation, the session of the .. 22nd of December is already, I think, is published. I want to accept only a few limited people for this session, because it will be a very long session, maybe 4 or 5 hour session, because I want you to feel an emotion. I want you to feel exactly how it feels to be a lover, the true lover, not in physical dimension. And we shower you with love, that you feel it inside you. And it'll be an amazing time, (1:24) because then the Christmas holidays and the rest will have a different meaning, if you understand it.

In the process of London Conference, and the achievement from it, is so glorious, that in the coming time, we will let you know. It was not, and then, what you call, quantity, was the quality which attended, and that quality has brought a movement in nations. And, in the coming time, we'll let you know, how London Conference brought such a huge change. It's gathering momentum in a very unusual way. And that's, as I said, it's the will of the Soul of those who were present and really wanted peace in exchange for technology.

The participants in that conference themselves have brought an emotion, which has shaken the British Empire. I will let you know very soon. And, as I said, when we finish there'll be no Kings. And, it looks like, that even the oldest lasting Kingship, will see a new dimension to his life. It'll be very interesting, but in the next few months, you'll understand, maybe our Soul not being aware of, why the conference had to be in London, (1:26) and how it is, and it's turning out to be one of the most interesting ambassadorial meeting we ever held. Because when we do it, is outside, when they do it, it's from inside. And that's how it crumbles from inside. Very, very interesting. And soon we will tell you more about it, when it takes shape, by those who are developing it to a very strange, very, very beautiful structure of peace in exchange for technology. As you were there to support us to bring it about, it's our responsibility to tell you what you have achieved, we're just the tools.

Are there any other questions?

Q: ... Do we have a DNA defect, or was it edited from past Universal travelers from another planet, or dimension, like the Pleiades or some other Star System? Is that why we find it difficult to change?

K- The defect comes from the structure of this planet. You know when your parents give you one type of food, (1:28) and because they don't like the other part themselves, and then you create deficiencies, because you were not fed the right food, because they were not eating the right food. And then you go to doctors and say, doctor says, "Oh, there is a deficiency." But the doctor says, "Okay, take this vitamin and take that." But it doesn't ask the family, "What's your diet that has created this deficiency?" A lot of children born,

brought up in the new fashionable vegetarian, vegan, we'll see other conditions in the children. And the doctors are trying forever to sort these new conditions, these shortages, these deficiencies. But what they don't stop to ask the family is, "Can I ask you how you live? What you eat? What you provide?" And then the doctor gives these supplements. But the cause is the mother or the father. And the way they live, and they're trying to bring a body of meat to a vegetarian, which is in his DNA. And now it shows these defects.

It's the same with us on this planet. The mother has deficiencies, does not give enough, and we create diseases, because of that deficiency. Because of that deficiency, the "tablet" of killing has been fed to us. And with it, to kill, to live, and to survive has come the bribery, (1:30) the thieving, the stealing, and everything else. They have not shown us how to love and how to be a lover. So when we get married, we don't understand it and become adulterous, because the structure of loving, what true love is, has not ever been taught.

So when you say it comes from DNA of the others (from other planets), they came perfect. What was created was perfect, but the motherland, this planet Earth, has deficiencies (in) operation. And then it's no use taking it to a doctor, unless you remedy the hole from the beginning, the Soul, the STP, and physicality in "one go." As I said once, we are the physicians of the Universe. We don't need to wear the clothes of the man who's a doctor. We understand the principle.

And so the deficiency comes from the way this planet has structured itself. That few degrees angle of inclination has created a beautiful life cycle. But it has not answered to feed the deficiency, and it has to come (from) within. It cannot come by facing. Otherwise, for example, those who face the sun will receive everything, and then you have to wait till you get (rotates) to the other side (of the planet). We call it 24 hours. What happened, this rotation is 1 million years, or 300,000 years, (1:32) or 500 years, if you're on the further out planets and you have a life cycle. Even you have the inclination.

So it has to come from the center. And this planet lacks that combination of Hydrogen and other mixtures to create, to feed, as is the Inertia. And this is where the problem is. You buy the most beautiful flower, and it's so beautiful when it's in the shop. When you bring it home, within days it dies. If you'd have left it in the shop, it would have been there for months. So the environment, the house is contaminated. It's you who have not created the right environment for that flower to exist. It's not the fault of the flower.

So is the Soul of this planet. In its structure, it's lacking energy to feed its citizens the correct way. So the citizens have to find a way to survive, once they ?? learn the DNA combination, by stealing, by killing. But the Soul does not kill. So now we teach the Soul to absorb the energies of the Universe, to feed the physicality that physically does not need to compensate for the lack of what's the planet is missing. Now you understand. This beautiful flower has been left in the wrong hand of the feeding. (1:34) Even though the greenhouse is beautiful, it has a problem. The gardener does not feed his plants the right mixture.

Any other question?

<< A Knowledge Seeker raise his hand by mistake here >>

Q: ... Good morning Mr. Keshe, the temperature on the planet is rising. How can we soften the heat with Gans and which ones should we use? (1:36)

K- I thought the heat of the temperature is rising because of our politicians. They're making it too hot to exist.

R: Too much hot air.

K- Too much hot air, yeah. Too much barking. Or, as I said to Knowledge Seekers some times ago, I think we have to put our politicians in a way, on the fields with the cows, they create the same kind of gases. It's just creating the right environment, wrong environment, too many of them on this planet. "Global warming" in a different dimension.

R: They say that there's too much CO2 on the planet, and that's what we breathe out. So the best solution is obviously if the politicians just hold their breath.

K- .. I don't know if I brought it out before. In a very recent developments and testing in Keshe Foundation, we have shown that we can convert the CO2 directly into AA. Which was a theory. And now it can be shown. And we have produced this AA. And it is on the investigation by the world leading scientist, because it was done in his lab.

We created AA, which meant, which means, or will create a lot of changes in a lot of industries. (1:38) This means that mankind can stop killing. This means a lot of other new dimensions in science. It brings in a new cycle of knowledge. And it brings in huge changes, huge changes, which, if I .. can call it in another word, the changes it will bring, it will be so astonishing, that we can control a lot of things with this new knowledge. And we can, in a way, bring in the process of creation, understanding of it, on this planet, much, much closer. What this means is that we can dictate where we want this, what we call, feeding system to come into operation, and how we control it, and how we what I call, (1:40) will bring in about new methods of creation, a new method of feeding, a new method of changing the dimension of the feed on this planet. And maybe a change of the atmosphere.

What has been achieved in the past, recent past, is something we've done before, but now we had to confirm it independently for what we call, scientists. And when it was done, it was extremely exhilarating that we could show the global warming can be used to become feeding the man, irrespective of time, place, and position. And it's very easy to stop this global warming and change it into feeding.

I show you couple of pictures that you can understand. You see I put a red line on it. You see the shining ring. (1:42) And it goes all the way around the disk we put in. This is where you see conversion of CO₂ into AA. This is one of the most advanced labs on this planet. We are in one of the most advanced technology centers in the world. This is done under control of the scientist. And when it was created, you see the hand of the finger of the scientist. He could not believe it, that how AA could be created out of CO₂. He had to taste, test the fatness.

So for us, we knew this. We knew this in tests from 6, 7 years ago. We knew this from 10 years ago. You saw this in the production of the Gans's on your Gans boxes. Now we have managed to produce AA in absolute purity anywhere on this planet. These little pictures you see will bring huge changes in the future. What does this mean? Go back to reports of what we gave years ago from trials of seeds in Inner Mongolia, where test independent, test done and the ?? position by the Beijing Agriculture University led an independent testing of the seeds, (1:44) that average protein in the wheat in China is about 11-12% and we created a 20%, which was the highest ever done in open, when the American and Australians did a test, created a 20% on a very specific conditioning laboratory. Now we could do it in the open, which meant the plant was happy, plant received what it needs. It doesn't have to kill or destroy to get that 8% to become full.

With this, it brings huge changes. In a way, this is what I said to you years ago. And now it's in the plan of the development of the, what we call, "space cities," we have no restaurants. We have no hospitals, except for what you call it, emergencies, accidents and emergencies. Even those, when they come in, they go through the new process. Because of this, because we'll feed the man that shortage protein in the air he breathes, in the environment he walks.

What is surplus? What he has already created as a CO₂? The creation of the CO₂ scientifically on this planet led to creation increase of the Oxygen and Nitrogen principally that it led to life, to creation of AA. Now we can do it in open. You can see the ring, it is so clear. And inside, in the center, there is a system which has created this ring. (1:46) Then you understand how easy it will be, but in a way, what is needed to be converted will be converted in environment. That when this AA rains, it rains on the plant, on the dog, on the man, on the beast, on the oceans that the fishes eat, and none shall kill.

The global warming is a blessing for man to walk away from killing if he understands how to use the technology. Years ago, when we were in Ghana, the guy who now, we know where he's gone to, Benjamin walked into all the time, and he had a big belly. I said, what happened? He says, "Mr. Keshe, I just take one stick of AA's from the Gans box every day, and this is what's done to me. I'm just getting fat on the belly." We said, good.

But if we create structures over the cities, structures within the homes, structures within the fields that delivers, converts the proportion of AA's for its citizens, and in absorbing this energy, they do not need to feel hungry, would a man kill? (1:48) Would a man lie?

Would a man steal? Would a man do everything else? Now the knowledge is in our hand. Knowledge is part of the possession of the Keshe Foundation knowledge. So, the CO2 and what was missing from inside this planet, in using the same planet structure, becomes to subsidize, to give back, to the planet.

If I put a dog on one side of this ring, a man on the other side of it, a fish on the other side of it, a bird on the other side of it, a plant on the other side of it, they all will receive what they need, what the short is in their body. And none of them will kill another one, because it's not hungry. And this is where we hit it. This is where the Keshe Foundation now is working on, and working with it, and we'll develop it to the next stage. This little ring you see, it'll change humanity beyond. Because as we have shown you, as we've proven it, now we deliver it on the lampposts of the street. We'll deliver it inside your home, instead of the lights on the ceiling, in your kitchen, in your bedroom, in your sitting room, in the corridors of the power, where the politicians not only are hungry in the stomach, they will not be hungry for power. And this is that stepping stones for a change in man. (1:50) And this is where the change will come.

One of the most geniuses of the nation cannot make his mind what has hit him. And he's still in dilemma, how did this happen. They cannot stop the process of the science. But in time, they'll come to say, we understood, we saw it first. But now, this is how the, this is part of the test for development of the new cities, space cities. This is how in the Space we'll feed you. It's your emotion, we'll change it to beef. You'll change it to steak, you'll change it to bacon, and it becomes a Sunday breakfast bacon and egg for you. Your emotion will convert this to pleasures of life and physical absorption of what you want it to be. It's very interesting. What is problem in the global warming now becomes a feeding system, now we understand the knowledge. And not only understanding, we develop technologies to do it.

The reason you see this as a ring, because inside it has been covered. And the cover has been taken out to see the ring, to show the ring. And this goes back all the way to the sinks and everything you see, but in a lesser dimension. (1:52) If you would have put another unit on the sink, all this would have been full of fat. Where from this ring to the system is full of fat, pure AA.

All I need is to change it slightly, then it become water, satisfy your thirst, as some of you got flooded in the (Linz) system. And then if I change it a little bit, it becomes something else. And then you understand how we will control the whole emotion, the food, and the existence of man in the Space, in the dimension of physicality.

I hope you understand what this means. And I hope in the future, the world of science will come to develop this in a much bigger, bigger way. As we are setting up to build the first space cities, we are testing everything that it is like in the Space. And this is what I said. When you build a space city, it has to be totally exactly how you travel in the Space, not just by name.

Any other question?

Q: ... What exactly do you mean when you say, when the Messiah comes? Do you mean it as it's written in the old books, or is this about a new revelation?

K- Yes, it's about the new revelation that you are the Messiah of yourself, if you haven't understood it up to now. (1:54) The revelation is that you always blame the others. He stole the tablets. He didn't do this. The other one did this. Now, yes, the revelation is for you to understand that it's you who's the Messiah of yourself.

So they couldn't tell you because they couldn't rob you as much as they liked. We tell you the truth because we don't need to rob. We need, we ask. We don't stash away. As I said in the London teaching, many Knowledge Seekers offered us land and properties, schools, and God knows what. And we refused over the years. What's the use of having land? To build more temples, to create more fallacies? We build our home in your heart and your Soul. And we have conquered the Universe with it. Don't need no land. But as is a habit of the man, you have opened the banks and you have to pay for services which are free for the rest of the Universe. So we play your game. We need it, we come to you. And we are selling to get it the correct way. (1:56) When we are short, we ask. When we lose, we lose together, when we gain, we gain together.

So, don't think they forgot to tell you, because you are the one, you are the Messiah of yourself. So, who has fooled who, and who wanted to be fooled? So the new revelation is, it's in your pocket. And you're wearing the jacket. The magician hid it in your pocket. And you didn't put your hand in your pocket to see what was hidden. Don't blame the magician. He was good to fool you enough, in the name of all the religions and all the ?? tricks in the world. With us it's as strange as you, put your hand in your pocket and see what's in it. It's empty, because the actual thing sits inside. You don't need to feel it with your hand. You have to feel it within the emotion within you. And you have done it. That's why, as I said, there are no Keshe Foundation temples and the Keshe Foundation holy books and the rest. Because the truth is you, and you sit within it. The rest, we just show you where it is. And even that, we don't ask you to give some of it to us, because we have enough. As we need, we receive from the Soul of the Creator. (1:58)

Any other question?

Q: ... The new feeding system by way of AA's. Is there a possibility to feed, for instance, the Palestine Nation in Gaza, in one go? ... Is it possible to feed the starving people in Gaza now, with the AA?

K- We can feed everyone with this new technology. You go back on the Gaza, yes, we all feel the pain, we know. But you have to understand, this is the beginning of a very big end. I tried to avoid this, but in a way, it's not, you cannot avoid it. And this is going to cause a lot of problems for Keshe Foundation, what I'm just about to put out, and you will understand it. But we are used to it. But maybe it always brought good things to us.

For the first time in the history of Islamic Republic of Iran history, in past 40 odd years, (2:00) Iran has accepted the two state policy of the United Nations, forced by Israel. In the last emergency of United Nation meeting, which became ratified, for the first time, Iranian government has signed into the two government policy. This would have not been done if the religious leaders between Vatican, Iran, and Israel have not achieved or reached understanding in the background.

We understand this to be as if you remember about three, four weeks ago, five weeks ago, when this all started on a Sunday. And on Wednesday, I directly requested and put our thoughts to the Iranian leadership not to get involved, withdraw from what you planned. Then when the reasons was given to them, and then on Thursday I explained again openly, Iran would change policy and would help from moving on with what was planned, that would have brought demise of Iran. And the wisdom of Ayatollah Khamenei of Iran with advice was given, followed the path. And overnight, Iran changed position.

And that change of position has brought a new dimension in political world in what we call, Middle East. But this is again temporarily, because Israel and the Vatican will use this to turn back on Iran once they finish with the Palestine. And this is what the warning sits on the Iranian leadership. The agreement between Tehran, Palestine, (2:02) what we call, Tel Aviv and Vatican, is a temporary arrangement. We know this to be as we see Americans have moved and are moving massive forces in directions to counterpart the new, what I call, quadruple system of the China, Russia, Iran, and North Korea. They'll use war against the other.

In the recent conference in Tehran, which was set up by the four, it was to show that attacking Iran will bring South Korea into game. The intensity in Ukraine will increase, and then the Americans will be engaged on five fronts. They cannot respond. Japan will be taken off operation directly by South Korea, by North Korea. The game has heated up much, much bigger than Palestine. The five day peace will lead to another bunch. But you have to understand, the Iranians found out and on request to pull back at the right time, left the Hamas to play on its own, where it was totally different planned. Saving Iran, saving the history of 2,500 years of what we call, nation, was understood by Ayatollah Khamenei of Iran, withdrew overnight the flags of Palestine, came down from Iran everywhere on Thursday, when the advice was given.

And just go, as I said, into the United Nations, Iran, for the first time, (2:04) has signed a two state policy, which has been against the principle policy of Iran from day one. This is why we see all the plays around and everything else. The Israelis wanted what they wanted, they got, American got what they wanted, a 2 state, Jerusalem will become the capital of Israel, by joint policy capital, very much like it'll be in the long term, like Brussels. And we'll find a temporary solution and maybe a permanent solution.

But now, in the past, it used to be the communists and imperialists in the West. Now has become those who oppose military aggression against one nation, which is more or less America, forcing Europe into this dilemma. But America cannot fight in four fronts in a

very heavy wars. Because you've got to understand, South America is set to poise, and create a bigger problem for the Americans.

In that way, this 5 day peace and the rest of it will be a part of it. And I warned the Iranian government, do not get fooled with what agreed and seen by Ahmadinejad in Tel Aviv in past few weeks. Because it has to be understood internationally. All the negotiation with Israel is done by Iranian, ex-president of Iranian structure, Ahmadinejad, because he's half Jewish, or he's fully Jewish. And he has the connections, and he's been always the intermediary between Iran and the Israelis, even during the war of what we call, Iran-Iraq. (2:06) And this is why a Jewish guy became to become religious, what we call it, president of an Islamic nation, on the banner of being Muslim. And he is negotiating in the background with his connections and his bloodline with the Israelis. And they have brokered this, what we call, negotiations.

We are watching it very closely. And this will bring long term peace, what we're looking at. But temporarily might create a huge pressure on the Americans. Politics of Gaza is not just ?? breathing. It's just trying to stop the mayhem to expand. But what we call, interfaith acceptance of the Israel, the what we call, ?? Kenessad. The Ayatollah Khamenei of Iran and Vatican has brought this temporary peace and what we call, Hamas is getting the hammering of it. And in a way, Iran had a long, long standing grief with Hamas. And this allowed it to happen.

Once the situation settles, which has risen in past three, four weeks, after position change of Iran, there is a skirmishes, because there are still some people loyal to what was accepted before, and they want to enforce it. But Iran's central government, with Ayatollah Khamenei, are withholding everything back. They are showing power. Because if they don't show power, it'll (be) other things.

But in principle, we have seen Chinese winning all the cards. Americans literally devastated, (2:08) are skirmishing again, like Vietnam out of Ukraine, in a different way. They are trying to show they are still in power with a few naval forces here and there. But in general, any attack on any of the four nations will leash, what we call, unleash, North Korea on South Korea and Japan. That's for sure. And this is why Americans are moving, for this might stop. But soon this will all be stopped.

And my wish is to help, if ?? I see the suffering of Palestinians. But in so many ways, we can feed. We can do a lot of things. But the Israelis don't allow us to go in. Secondly, there is a lot of land to be claimed after this. You will see part of Gaza will become part of Israel. This is what is already agreed in agreements in the background. The expansionism into Gaza and trying to push the Palestinians to be accepted by the Egyptians to go into ?? Sarnia (Sinai) and the rest of it. This is why initially we offered to move the Palestinians into Iran temporarily till it's done. But they, what you call, they offered for the students to be moved to Iran or people who are in university that carry on with their education. In the other hand, we'll see how they expand this and how the position will change.

There is one thing for sure. There will not be a state of Israel or Palestine in the coming time. That's for sure. It'll go back to what it was, (2:10) because the whole structure is set to go that way. The whole structure is set for the end of Judaism by itself, not from outside, by diminishing numbers. And this will take the next few decades. It cannot be done. Because you see, if you rocket them the way Hamas did, now you become terrorists. But if the Israelis are killing their own soldiers in the hand of Hamas, if the Israelis got killed, 1,000 some of them, by the American rockets which came from Ukraine to kill them, nobody talks about it, because they've done it to themselves. But when the other side hits, even with the tools of themselves, then become a big problem.

And this is not the first time we've seen this. If you go back, we saw what used to be known as the Iran-Contra, where the Iranian took weapons from the Israelis, and the CIA arranged that, for the Iranians are paying the Israelis to show they're collaborating. They paid to the, what you call it, South American Contras for fighting the left regime in South America (Nicaragua). And unfortunately, the dealer in the middle never got paid.

And this is what we see again for the second time. The guns were bought by Yasser Arafat to go into Israel. The Israelis captured it. It wasn't their weapon. So they sold it back to the Iranian on the Contra, what you call, affair. And then, now again, the Palestinians did the same. (2:12) They bought the guns this time from the Americans, from Ukraine. And they came to use it. And they use it. And now they're getting it back. And the Israelis are killing their own selves. Every time they came to bomb it, the Palestinian knew where they were coming, they put the Americans there and they got killed.

So now they're trying to find a peace time to get their people out before they start killing more. Because this time they don't want to be ashamed that they're killing themselves while they're trying to free their nation. This embarrassment came with the killing of one of the high ranking woman officers of Israeli in trying to bomb a place. They bombed where the hostages were killed. There's a lot behind this.

And we can feed them. You've seen it on the table. But this religion group has to have come to an agreement. Israel will use the signing of Iran to two states after this war, heavily, and will push for it. And they have set the scene for this. This was the wish of Vatican, because there is more conflict set for the future to be created, which we are aware of. But we have taken a step for it not to happen. But this is why Tony Blair was now has been talked to be the leader of ?? , a British guy who's made 18 billion out of government, has to do to become governor of Palestinians. So there is a lot of diplomacy with the British behind it.

The Palestinians can be helped, can be fed. For the moment we are sitting on the sideline and watching. And it all depends how next step will be taken by the Iranian government, Ahmadinejad's negotiation team in Tel Aviv. We'll see.

And it was a wisdom of, and understanding in what was passed as a message to the Iranian leadership (by KF). (2:14) And they took that advice directly the same night and

they changed position and saved Iran from destruction. And we go to the next step, and we see how the next step will be played.

But before that cuts takes any shape in the next three or five years, China will take the policy, and we'll see the change of policy still comes through "technology in exchange for peace." We tried to help Palestine, but as I've done for decades. But this time, the religious leaders have drawn the line (have made a decision), and we'll see what happens.

Any other question?

Q: ... If the body is a Star Formation, the following is unclear to me. Where is the fourth point? We have a STM, a STP, and P. Do we create the fourth point with our hands? Could you explain something about this?

K- How many rings do you have in the MaGrav? Where is your fourth point? What you call the fourth point, you have to change it to the fields. It's not a point. It's a plasma. It's totality. It's you who has to understand which part of this, which direction, which strength of it you want to travel in. The fourth point is the motion of the fields, and your emotion decides it. (2:16) In the future teachings, I'll explain more in detail how physical emotion can be connected to the Soul emotion. And with it, bring changes. And creation of what we call, new dimensions. You just got to bear for the other students to catch up. Most of them are still in the state of tomato (Ketchup). We need to bring everything to get the sauce made.

Any other question?

Q: ... Do you use two headphones tomorrow, and can you prepare? Thanks.

K- You can use two headphones, but in a specific way. Those of you who took your UBESUS Headphones, for those of you, I've explained this before. The UBESUS which many people ordered and paid for, were given to the Knowledge Seekers, most of them, or sent to Knowledge Seekers during the London Conference. So, UBESUS are actually now out and we started a teaching of how to use it, tutorial from the Sunday the 3rd of December, and then we'll publish with their permission the list of people who have bought this system, now what you call it, a license holders, (2:18) and you can go to them, you can travel to them to use it. It cannot be done with the .. This is a new dimension into totality of the process.

Where you connect with these Headphones the STM to the physicality of man. The system you have the headphones, two headphones with the Apple, is connected to a different system. The UBESUS is connected to a different system. And one is like in the Soul and one is the STP. And those of you who have the two systems, like the people who are the licensees, about 8-10 of you, you use a combination of the both. And you feel the fields, emotionally more than physically.

Those of you who don't have it, you can use two headphones or two mobiles with two or one mobile with two splitters on it, that you put one in your head and you put the other one on each hand, back of each hand, just try to tape it. And make sure the left and the right with your head is in the right position. When you put the left, of left microphone or the one with a, what you call it, the microphone on it in the back, you have to put it, when you put the handset, on the other hand, because your left brain controls your right hand, if you understand it.

This will allow the STP and the energy from inside to direct in the right way, because we have controls inside which will control this. So you have one headphone on you in your ears, and the other headphone for example you put on the right side the, (2:20) what you call it, the one without the microphone, and you put the left side on the back of the left hand. You just put a tape on it, and you can stick the headphone. This way you create the right flow. And then it gives you more possibilities of feeling the force and the fields we create. You can use two headphones.

Tomorrow's test, for many of you, will be life changing. For many of you, if you really feel the inner strength, the inner field of yourself. And how this will change. Not necessarily you will see the light. You'll feel the enlightenment. And this will go on to understand how to let this enlightenment go. This comes with the "Birth of Mitra" on the 21st - 22nd session. And you will understand how to, when you receive this light, how to let it overflow, how to fall in love with the Creator and not with his Creation. And then we go through the next process.

These are part of the structure, as part of the teaching we're taking forward. It looks hodgepodge to a lot of you who don't understand it. But those of you who go through it, and then your children and next generation will go through this training. There is no other choice. All these recordings, all these teachings will become the part of the education of the children in the time to come. That from first year in the school, they understand the control of the Soul. They understand the control of the fields. They have to understand there is no punishment corner, (2:22) because they all will talk good, live good, and act good in respect to each other. The teaching of being correct will come from the onset of the teaching in the house, in the schools.

And all this, what we do now, in the process we set up, in the system we set up, will be replicated to that point. So you are the first, what I call, students. But all this will become as part of the structure of teaching of the future. Don't forget we are teaching you today here. We're working with the governments, setting up the Space Cities. We are setting up the structures for what we call, human disarmament from arms. We are working with governments to show the benefit of the new technology, and next step and next step.

And it looks very calm, but a lot of things are happening together in the background. And in time (it) will come. You know, they used to call them the disciples. You're not disciples. You're those who dissipate the knowledge through Soul, once you learn it, as Knowledge Seekers. Always, the students become teachers. And if you teach well

enough, your students will become good teachers. And we are teaching our students well to understand.

Any other question?

Q: ... Can we also use the Nano coated mirrors in our hands to get a better flow? (2:24)

K- No, not for tomorrow.

R: That was a big no.

K- Because those are not created for, this is for man for himself. These sessions are for man to realize without any outside influence. And these "Nano discs" are for a different purpose. You can use it. See what you get. Especially those of you who have the one with the holes in. Those will be used very soon. We'll explained to you how to do it.

There is a, what you call it, new developments and new structures, which are coming into operation. All of those of you who ordered the Cosmic Ray pack, should start receiving it in the next few days, because they're just coming into completion of production. Then you will be able to communicate inside. You are not connected to the mainframe or to anything else. They are separated in the structure outside. Then you can communicate with those who have other systems. And you will understand how the communication will be done. You cannot use it in conjunction with the UBESUS or the other ones. They are made only for communication. Then the energy to produce for interaction. And they are set up totally different than what we call, the Health Units and the other Units we provide.

You got to understand the knowledge and the technology within Keshe Foundation has so advanced. (2:26) It's very much like we cannot use orange satellite system and facilities on Apple, or Samsung's on Apple. We control the Samsung and we control the Apple, and we don't let the two to mix, they're two different technologies. And it's very much like Androids, but we control all aspects of it. You cannot mix it. Even those who purchased the, what we call, license for the UBESUS, they cannot just go into the system, because their Unit is kept outside, when it's specified for what disease they want to use with Dr. Kern, it'll be moved in position, then we'll move outside. And it's well controlled. We are building a structure that we have the freedom of the knowledge, but we have control of the knowledge too.

Any other question?

Q: ... Which Gans is stronger, bones in caustic hot water or burnt bones?

K- What?

R: Which Gans is stronger? Bones in caustic and hot water or burnt bones? I guess they're talking about making Calcium Gans, perhaps?

K- What are you talking? (2:28)

R: You mentioned, I think, at one point, using chicken bones or cuttlefish, I think it was.

K- Yeah, that was for easy to get. Before, what you call it, we... it was easy and fast conversion. That was done for.

R: So which would be stronger?

K- It's all the same, depends what you need, what you want to do with. We are, as we're talking, our team are wrapping the UBESUS and everything and leaving Austria very soon. They'll go, hopefully, to the exhibition in London. and the end of an era, an end of the ?? fruit of our work in Austria has started. And it'll be what I call, beginning of another structure. Our work in Austria has come to an end, and will come to an end in what I call, step by step, as UBESUS, which is a symbol of the new technology, are getting packed and wrapped and about to leave. And as we always share a lot of things with you. You saw when they came into Austria, (2:30) and now you witness their departure. A new era for Keshe Foundation. And we had to close our operation. Inside this black wrapping is one of the most advanced technologies man ever know leaving Austria with Keshe Foundation.

Any other question?

R: You have completed our questions for today Mr. Keshe, congratulations.

K- Again? That's good, we're getting... I think now for people it's hard to understand, how the emotion of themselves, and how the process of emotion, has been the dictator of the whole process. And they always were hoping somebody will make a MaGrav, somebody will come and assist them. Now they find out they are the system themselves. And this is a shock to them.

The transmutation of light tomorrow is the next step in teaching. And then 21st, 22nd is the next step of teaching. Now I created, I can receive. Now I created, I can give. And I'm open to give, and that giving brings me a new meaning to loving. A lot of you, if you go through understand it, and in a way not understand, to get enlightened, in the 21st, 22nd session, in Birth of Mitra, (2:32) what we call, the night of ?? Yalda, you will learn, and you will be touched with what I said, when you "love loving." And that will come out, it's a very, very... very strange feeling for many of you.

Q: ... I had a discussion, last night, ?? this has been, one thing I was trying to figure out is. We talk about this planet is a nursery that we come and we kind of get wisdom, if we get wisdom, and we leave and we create another planetary galaxy someplace with that wisdom. We become, we are a seed that, we become a ?? seed in the ?? will. So, if that's the case, the defect of the planet probably is part of the plan, because if there was no defect, then there wouldn't be any killing and hate, all that, so if there is no hate, how

could I understand love? And how could I become wise? Because, if from the point of inception...

K- Can I, can I come in Azar, can I come in? Do you need to cut yourself to know what the pain is? (2:34) Or if you have blood? Did the man had to go through, coming to understand to kill and not to kill, if it was a perfection?

Q: No, no.

K- So where are we going?

Q: So, how does the wisdom comes? I mean, if everything was loving, how do you get the wisdom? You always said there is a pain, when you said there is a pain.

K- There is a wrong philosophy, and I call it partially, it's like a Chinese proverb, I've said that many times. It says, suffering makes you wise, wisdom makes you rich. What about if we change it to joy, happiness brings you wisdom? Wisdom of love, wisdom of understanding the Creation. We've been brainwashed to accept this. We have never been ?? shown ...

Q: You said it to us, we didn't say it to you. You said pain brings wisdom, so we are...

K- Yes, because this is the way you understand as a Man. You don't understand the joy, what it'll bring. When we fall in love, we suffer, we crave for the love, we do everything to get the love and when we get it, what happens?

Q: It brings us joy.

K- Yes, but then we cannot hold on to it because something happens, so that the love falls in love with another love and then you lost the love. Or you get old and dies, you lost the love, or whatever. So, it's for us to understand.

This is why we start, not start, we go in processing to the next step. (2:36) That there is more joy, there is more wisdom in loving, in giving, than actually suffering to get it. When you love your child, and he loves you back, you give more back. Do you let your child to suffer for it to appreciate that you love her more, then next time you beat her up and you want more love, you come back? This is where everything has gone wrong. I always said, is in the, in the proverb of Chinese. Now you learn the proverb of Universe.

Q: Okay, I'm going to go with the proverb of the Universe then, so that's better.

K- It's not better, it's the reality. This is what you understood now, you matured, you understand the next level of it.

Q: Thank you.

K- How can you tell people, when you don't have, when they're not ready, when they're not enlightened, to go to the next step? Now they're ready, now we're going into that phase. And it's not that all will go together, it's always been gradual. One, two, fifty, a hundred, a thousand, as I said many times. Keshe Foundation in October, September of 2004, 2005 was one man. Then became two, and then became three. And then today, as we see it. And now it will be the same. We started ?? full teaching. Many of you come into this teaching. Many of you come into the sessions. And then you start understanding. And then if you love a man, most probably by next month, (2:38) you will love loving the man you are with, not just love the man. If you are enlightened to understand the STM, and the Soul is what's there. It's not a physical commitment, it's a life commitment through the Soul.

Then you understand, if I'm wasting my time with this man, or it's time to, what I call, blow the lamp, to let it go and bring more in. I have said, and I know the lady is a listener of the Knowledge Seekers in this programs, she always listens. Years ago, when we used to run the Keshe Foundation in Belgium, there was a lady who was everywhere. Even she kept on coming back as in the claim that I'm sick. It's this, it's that. I said one day to her, can you tell me what is wrong? There is nothing wrong with you. She said, I'm in love with you, Mr. Keshe. I said, this is a false love. What's the reason that you are always here? She said, I have a problem with my husband. I said, what is the problem? She said, I have a problem with my daughter. I said, so what is the problem? She said, I love my man beyond imagination. Since my daughter born, he's so much in love with my daughter that he's forgotten me. And I'm searching for that love. And I have become his biggest enemy, and I've become an enemy of my child, because I'm looking for love. I said the problem is you, not them. (2:40) You should be proud that you created that daughter, that the man you love loves her so much.

In a way, you have to love him so much that he loves what you love so much more than you and puts everything in it. She started crying. She said, I never understood. I said, go and love the man who loves so much what you created to love. I never saw her again. She wrote a message years later, "You are a true master. I found, and life has never been so beautiful as you said. It was me who was causing the pain, because I could not accept. I wanted it all for me." It's us who has to understand. And, does not have to come through pain. It's much sweeter through love.

Thank you very much for today. As Rick said, we answered all the questions. I hope if there is no more. See some of you tomorrow in the session of the light. And try to come to be mature in Soul. Don't come to understand, don't come to see the light, (2:42) come to be enlightened with the love of the Creator, which is you. Thank you very much, and see you some tomorrow, and some next week.

K- Sorry Rick, I just received a message, says, "Can we still sign in for tomorrow's session?" Yes, we close the session entry tonight or tomorrow morning. So, yes, you still can join in. But for the, what you call, December, with Mitra, please complete, because I would like to create a condition to choose who and how we place this, that it brings the

next step for us. And I'll explain that when it comes in the Christmas week, New Year, what will be done in that, what you call, the session. Thank you very much.
